HOUSTON & TEXAS CENTRAL FIRST MORTGAGE BONDS

Notice of Bonds Drawn for Payment.

The Houston & Texas Central Railroad Com-pany, having in its possession cash proceeds from sales of lands covered by Trust Indenture between Prederic P. Olcott, the Central Trust Company of New York, and the Southern Pacific Company, dated April 1, 1890, which are applicable to the purchase of the Houston & Texas Central Railroad Company's First Mortgage Bonds, secured by such Indenture, to an amount sufficient at the price limited in said Trust Indenture to purchase and retire 200 of such bonds, and, it having been found that such bonds cannot be purchased at or below 110 per centum of the par value thereof and accrued interest thereon, there have been drawn by lot, under the provisions of such Trust Indenture Bonds secured thereby, bearing the distinguishing numbers hereinafter stated, to be paid for out of such proceeds of such land sales at the said rate of 110 per centum of the par value thereof and accrued interest thereon.

thereof and accrued interest thereon.

The distinguishing numbers of the bonds so drawn are as follows, viz.:

10 861 1,723 2,469 3,628 4,826 5,887 7,102 30 876 1,724 2,481 3,655 4,861 5,923 7,105 95 892 1,790 2,520 3,656 4,912 5,965 7,149 151 910 1,804 2,576 3,671 4,923 6,003 7,182 187 930 1,833 2,638 5,076 4,946 6,063 7,232 12 956 1,997 2,658 3,698 5,019 6,079 7,355 235 992 1,927 2,809 3,869 5,026 6,140 7,479 283 1,012 1,966 2,889 3,940 5,046 6,164 7,488 302 1,057 1,985 2,990 3,986 5,066 6,208 7,555 325 1,063 1,994 2,946 3,999 5,197 6,281 7,585 342 1,074 2,012 2,995 4,002 5,214 6,353 7,665 501 0,862 2,020 3,120 4,088 5,230 6,358 7,677 402 1,095 2,035 3,161 4,123 5,275 6,399 7,698 483 1,148 2,048 3,231 4,107 5,350 6,423 7,733 522 1,174 2,054 3,253 4,296 5,378 6,423 7,754 597 1,218 2,093 3,303 4,331 5,442 6,437 7,774 522 1,174 2,054 3,253 4,296 5,376 6,428 7,769
597 1,218 2,093 3,303 4,331 5,442 6,437 7,774
631 1,292 2,109 3,324 4,338 5,479 6,486 7,789
643 1,389 2,182 3,384 4,386 5,507 6,459 7,820
659 1,392 2,184 3,486 4,444 5,572 6,508 7,870
722 1,429 2,186 3,576 4,458 5,677 6,569 7,926
732 1,584 2,192 3,601 4,476 5,716 6,581 8,001
752 1,597 2,299 3,602 4,678 5,724 6,647 8,005
758 1,612 2,309 3,603 4,708 5,748 6,721 8,006
764 1,623 2,321 3,615 4,785 5,815 6,776 8,018
858 1,675 2,449 3,625 4,796 5,863 6,859 8,023 200

The bonds bearing such distinguishing numbers will be paid for at the rate above mentioned, viz. 110 per centum and accrued interest, upon presentation thereof, with all unmatured coupons attached thereto, at the office of the Houston & Texas Central Railroad Company, 120 Broadway,

New York City,
The bonds so drawn will cease to bear interest from and after sixty days' published notice of such drawing, viz.: from and after the 28th day of November, 1908.

READJUSTMENT COMMITTEE Westinghouse Electric & Manufacturing Company

New York, September 29, 1908.

To Depositors Under the Readjustment Agreement Dated January 20th, 1908, and Other Creditors:

Pursuant to the provisions of the sixth article of the agreement for the readjustment of the debt of the Westinghouse Electric & Manufacturing Company, dated January 20, 1908, the Readjustment Committee hereby gives notice that it has adopted and lodged with the Depositaries a modified or substitute plan (based substantially upon the "Merchandise Creditors' Plan"), copies whereof may be obtained from the Depositaries or from the Secretary of the Committee.

The time for the withdrawal of obligations and claims as provided in Article Sixth of the Readjustment Agreement expires November 4th, 1908, and the amount to be paid toward the expenses of the Committee by depositors who elect to withdraw their deposits has been fixed by the Committee at 1 per cent of the face value of the obligations or claims withdrawn.

Convertible Bonds, Dehenture Certificates and Collateral Notes not withdrawn will be delivered without charge upon the consummation of this modified or substitute plan.

Holders of Convertible Bonds, Debenture Certificates, Collateral Notes and Floating Debt of the Company who have not filed their obligations or claims, are invited to participate in this modified or substitute plan, and to that end to deposit their obligations or claims on or before October 27, 1908.

Deposits may be made with Bankers' Trust Company, New York, N. Y.; First Trust & Savings Bank, Chicago, Ill.; The First National Bank of Pittsburgh, Pittsburgh, Pa., and the National Shawmut Bank, Boston, Mass.

MEMORANDUM

A large minority interest in a well known New York financial institution can be bought by responsible people at an attractive price. If necessary a bare majority could probably be dealt for. Dissensions among the management following last year's business disturbances constitutes the chief reason for selling this interest. The institution is now in excellent condition, is well located, is widely known, and has deposits in excess of \$8,000,000. In addition, it has a lucrative trust business.

Inquiries, except from agents and brokers, will receive prompt and confidential attention. Address "X. Y. Z.," care Commercial and Financial Chronicle, P. O. Box 958, New York City.

THE FINANCIAL SITUATION.

Politics has continued to be the prominent feature in affairs the current week. Nothing essentially new in that line has been developed, except the formal notification of Mr. Chanler of his nomination as Governor of this State, and his speech of acceptance. Nor has any unexpected change occurred in industrial matters. Enough uncertainty exists respecting the future outlook to keep conservative classes from entering upon new enterprises for the time being. The more venturesome will, however, take the chances as they view them. Hence, we have the current market condition, strong and yet weak-strong for bonds, good whatever happens in a political way, but weak for stocks by reason of the legislation which has taken away the income and credit from so many large industrial concerns, leaving them more or less neglected by men of capital. The market will in some measure continue floundering until such classes think they see assured light ahead in the changes in the election prospects. It should be remembered, however, that securities already stand on a very considerably higher position than the level the October panic left them in.

A natural increase in cars in motion is reported. We say natural because the change is no doubt due to our large crops, matured and maturing, and the very remunerative prices awaiting their marketing. The forwarding of these products is as yet somewhat fitful, but the outflow must increase as the months pass and the crops ripen and the burden of stocks accumulating, force their way, as they inevitably must, to the consumer. Late railroad earnings are as a rule disappointing. We have referred lower down in this article to that important feature, and consequently give but a few words to it here. We cannot help referring, however, to the king of roads, the Pennsylvania-a road whose history has been such a marvel in itself, building up thriving cities and towns over an immense section, and providing occupation for the millions of individuals that have grown rich off of the droppings of that fructifying agent. Legislation has been such that the road is actually forced to economize in every department, stop all sorts of new and desirable work, shortening its purchases of supplies everywhere, so that all the little and big concerns it has helped so much to build up are forced to economies, too. The Pennsylvania Road's earnings for August published this week indicate a falling off in gross on the lines east of Pittsburgh of \$3,877,600 and on the lines west of Pittsburgh of \$2,013,300.

A Paris cable this week stated that the Russian loan would be issued in the latter part of November, and that it would consist of 4½% bonds that would be offered to the public at 91. This statement is not new; it simply confirms that which we have already published. It appears, however, by another cable, that 40 million dollars of the 240 million dollars Russian loan will be apportioned to Paris, while the remainder will be offered in London, Amsterdam and Berlin. It further appears by mail advices that early next year the Douma will be asked by the Council of Ministers to authorize an issue of a large Russian foreign loan, the amount and the conditions of which will depend upon the deficit. This loan is said to be rendered necessary by the fact that all Ministers of State

will require large sums for carrying into effect the reforms upon which the Douma will insist.

A Berlin letter, in announcing the expected arrival. early this month, of £400,000 sterling, or 2 million dollars, from Australia, states that this will mark the conclusion, for the present, of efforts by the Reichsbank to attract gold; the amount which has been attracted to Berlin thus far is £10,000,000, including various amounts from London, New York and Australia. It is also stated that the members of the commission of inquiry that was appointed last spring to investigate into the condition of the German banks will assemble Oct. 12, when they will discuss a project for making Imperial Bank notes legal tender, thereby increasing the reserve of the central institution. The commission has already dealt with the question of extending the total of notes permitted to be issued without interest, with what result is not known. It would appear from statements by those in this city who are familiar with German finances that the "Imperial Bank notes" above referred to are probably in large part those that were issued against the 30 million dollars gold in the "war chest" at Spandau, most of which notes are already part of the Bank's reserves. It was proposed at one time that the Government should sequestrate this gold; it seems now to be intended to make the notes legal tender and indirectly to employ them in much the same way as our gold and other certificates, that are issued against coin, are employed for the mobilization of such coin. It also appears from the above statement that the volume of uncovered notes of the Reichsbank, or those that are issuable without the requirement of a 5% tax thereupon, is to be augmented.

The new Turkish Government is to undertake important reforms; this seems to be indicated by the application which has been made by it to the British Government for a loan of the services of Chitty Bey. the advisor to the Minister of the Interior under the Egyptian Government. Should be be willing to take service, it is proposed to entrust him with the reorganization of the Turkish customs, a most important task.

As an explanation of the tendency, which has been observable, of small notes to remain outstanding, instead of their being returned to the Treasury when the volume is redundant, United States Treasurer Treat says that it is now the custom for clearing houses. which custom is for the first time established, to gather these notes that are received by bank members and. after selecting those that are fit for circulation, to store them in their vaults until such time as there shall be a demand for the notes for business or other purposes, the clearing-house banks, meanwhile, employing the receipts for the notes in part settlement for balances. This method of disposing of redundant currency was adopted by some of the New York banks last spring, because they had accumulated to such an extent as to be embarrassing to institutions which had only moderate vault facilities. The notes consisted of silver certificates of small denominationsfrom one dollar to twenty dollars—that are usually in request in the summer and the fall for crop distribution. Had not the above-mentioned disposition been made of them, and had they been forwarded to the Treasury, there might have been some delay by the

Department in responding to the requisitions of banks when they were needed. The notes being in store at the clearing house, they could be readily withdrawn. on surrender of the receipts, and be distributed to the country correspondents of the clearing-house banks. In this way, it is reported, about \$15,000,000 have been cared for this season in this city, and recently some portion of the notes has been re-circulated in the interior through the express companies. It is stated that national bank notes that have been forwarded to the Treasury for current redemption and been returned to the issuing banks have been promptly re-emitted and thus kept outstanding, because the banks could thereby avail themselves of circulation at a minimum of tax and of cost.

It is a matter for congratulation that in this State business men who are opposed to the political tendencies of the day, and particularly the radical policies which are responsible for the present extraordinary depression in trade, will have a chance to vote in a way to indicate their preferences. It unfortunately very often happens that all the candidates will be of a radical type, and committed by their party platforms or their own action to destructive policies, so that the voter really cannot register his vote in the way he would wish, but is left to a choice of evils. In this State, a fortuitous combination of circumstances has brought about a situation where the voter is given an opportunity to support a conservative candidate if he so desires. Through the speech of acceptance which Lewis Stuyvesant Chanler made on Thursday, when officially notified by the Democratic Party of his nomination for Governor of this State, the issue between him and Governor Hughes is sharply defined. On all matters where Governor Hughes's administration has been open to sharp criticism, Mr. Chanler places himself in sharp opposition to the same. Mr. Chanler espouses conservatism where Mr. Hughes can see no merit except in radical policies of a particularly destructive type. Mr. Chanler, if we may judge by his words, is in favor of the theories of Government promulgated by the founders of the Republic, and which, until within the last one or two decades, were considered sound by the whole population. Mr. Hughes, on the other hand, would subvert the old order, restrict the freedom of the individual and enlarge the functions of the Government, and would make public officials the arbiters on questions relating to the promotion of enterprise-in brief, would generally, not less so than Mr. Roosevelt, substitute personal government for government under the Con-

We noted with approval two weeks ago that the New York Democratic platform was satisfactory in taking a stand against these political tendencies and policies, and now Mr. Chanler, by his speech, announces that he stands squarely on this platform. The platform denounces government by commissions or publie bureaus, and says that "it (the country) wants less noise, less legislation on new and untried lines and of doubtful constitutionality, and less interference with personal and economic liberty." It also expresses belief in the Jeffersonian formula that "the people are best governed who are least governed." Mr. Chanler declares adherence to the same ideas and does it in a most unmistakable fashion. He says: "We have had of its employees. Using the very direct catechetical

too much excitement and hysteria; let us right wrongs and reform abuses calmly and without unnecessary noise. It is not necessary to begin a reformation by creating a panic; reforms intelligently instituted should result in a firmer tone in business and in greater public confidence in existing conditions." He says, furthermore, that he favors to the fullest extent practicable doing away with "government by commissions." Alluding to Mr. Hughes's plea on behalf of the Public Service Commissions, he asks, what do they cost? What have they done? And adds that a commission, to justify its existence in opposition to the principle of direct responsibility, must do more than show an occasional benefit. He declares himself "a great believer in not unnecessarily interfering with the personal habits, customs and pastimes of the people," and asserts "that the line of reasonable and necessary regulation having been reached, or even exceeded, the more we endeavor to restrict personal liberty the less likely shall we be to promote in any effective, permanent way public morality." These are sound and healthy utterances, to which we should imagine all rightthinking Americans must give unqualified assent, and if more public men could be prevailed upon to take a similar stand on the issues of the day, the prospect of an early and permanent revival in trade could be regarded with greater confidence and assurance.

The organization of railroad-supply concerns effected on Wednesday, under the title of the Railway Business Association, may or may not be a permanent one; that is for the future. But it is significant of present conditions when representatives of perhaps a hundred concerns get together "to pursue a campaign of education to make the public better acquainted with the railroads," and do this, avowedly, because their business prosperity depends directly upon prosperity for the roads. The chairman and principal oranizer said frankly that the meeting is not for aiding anybody's election, but for aiding manufacturers who have long suffered because of the diminished purchasing ability of their principal customers. It is a fact that railroads are the largest class of consumers in the country, requiring many kinds of personal services and almost every material thing which is produced; any curtailment of their purchases, therefore, hits everywhere. Producers of railway supplies have to reduce output, the many trades which are subsidiary to these supply concerns must reduce theirs in turn, and so prosperity tends to reduction all around.

We supply concerns (said the chairman of the meeting) represent millions of capital invested, employ hundreds of thousands of men, and buy more tickets and pay for more freight than the political screamers do in a hundred years. Speaking of what he called "the wrath trust," he declared that no trust ever organized in this country is able "to create the thousandth part of the havoe, rob so many of employment, strike terror to the hearts of investors, and diminish the incomes of widows and orphans, as has this Juggernaut of agitation." Something must be conceded in warmth of language to a man who speaks feelingly, and this talk is in the same line with a circular letter which a steel foundry company in Illinois lately inclosed with the pay envelopes

form and constructing a sort of ladder of commonsense logic, this circular informed the men that they have lain out of work because the employing company had no orders for its goods; the lack of orders was because the railroads and others could not buy supplies; the railroads could not buy, because they could not borrow; they could not borrow, because the general hostility to them had scared off investors, but when the roads are again prosperous then there will be work and then money will circulate again; and so on.

This certainly comes close home to the living of many thousands. All which is now said by the people who protest against any increases in freight rates, while considerably exaggerated as to the extent to which any proposed increase could enter as an unfavorable factor into prices of commodities, is quite sound when it dwells upon the vast importance of transportation and the intimate dependence of every interest and person upon it. But there is a corollary to this, for by just as much as transportation is necessary to the general well-being, by just so much is the well-being of the carriers necessary. We must have ample, reasonably prompt and reasonably cheap transportation-all are agreed upon this; but such transportation, serving the present and the growing needs of this great country, is not possible unless the corporations which are to provide it are able to live and grow. Attempts to bring the railroads to book and force them to be agreeable may win popular applause for a time, and nobody may trouble himself to look far ahead; but if general prosperity is bound up with right transportation service it is bound up with the welfare of the carriers too-the one proposition involves the other.

The preliminary report of the Census Bureau on cotton consumption in the United States for the year ending August 31 1908, recently issued, showed that during the period covered the mills of the South consumed 2,256,613 bales, against 2,410,993 bales in 1906-07, or a falling off of only 154,380 bales (6.4%), whereas in the same interval Northern establishments exhibited a decline of 255,118 bales (9.9%). This Census Bureau report, so far as it applies to Southern consumption, is in approximate agreement with the result disclosed in our annual cotton crop report issued Sept. 4, and shows, as President Finley of the Southern Railway in effect says, that the cotton mill industry of the South suffered less during the period of general business depression than the mills in other sections of the country, and this notwithstanding the falling off in the trade for China, upon which many Southern mills place large dependence. With good reason, Mr. Finley looks upon the report as furnishing additional evidence of the superior advantages of the South as the location for cotton mills.

The strides the South has taken in cotton manufacture in recent years and the comparatively moderate decline in the volume of consumption last season is certainly a cause for satisfaction and gratification. From an average weekly consumption of less than 3,000 bales per week 30 years ago-in 1877-78there was a steady and quite rapid advance, until

bales, and averaged for the season (notwithstanding the general decline in all business in the more recent months) almost 43,000 bales. In the meantime Northern consumption, which in 1877-78 averaged 28,500 bales, rose to an average slightly in excess of 50,000 bales in 1906-07, and, according to our figures, was slightly more than 41,000 bales in 1907-08. Or, dealing in totals rather than averages, the South consumed 148,000 bales in 1877-78, advancing to 443,373 bales 10 years later, 1,227,939 bales in 1897-98 and 2,234,395 bales in 1907-08, the aggregate in 1906-07 having been 2,487,088 bales. The excellent showing under adverse circumstances made last season led us to remark in our annual report that "Southern cotton mills have done relatively better than those at the North, the decrease in the volume of consumption having been comparatively moderate. It thus happens that, for the first time since cotton-manufacturing became an established industry of the South, the mills of that section used more raw material than was consumed by Northern establishments." The advance thus far made, furthermore, can be taken as indicative of the progress yet to be made when warranted by industrial conditions. And it is not without the range of possibilities that the not very distant future will find the South, with its natural advantage of contiguity to sources of supply, outranking in cotton-manufacturing prominence most of the world's centers of activity in the industry.

Bank clearings returns are beginning to indicate a volume of mercantile transactions more nearly in agreement with the movement in 1907 than has been the case for a number of months past. It does not follow that there has been a return to what might be termed normal business activity; on the contrary, a much further improvement in conditions must take place before a statement of that kind would bear the stamp of truth. At the same time there is no doubt that returns of clearings are on the rise again, and that fact encourages the more optimistic feeling prevailing in general mercantile circles. With the Presidential campaign over, and crops moving freely, there is a basis for the growing hope that the situation will improve steadily.

For the month of September 1908 the clearings for the whole country exhibit a fair gain over the corresponding period of 1907. That gain is due, however, solely to the increase of 12.5% at New York, which in turn is ascribable to a larger volume of transactions in share properties at the Stock Exchange this year than last. This is clearly apparent when it is seen that for the country outside of New York the falling off from a year ago is 5%. But even that is not unsatisfactory when contrasted with the losses, ranging from 12 to 17.4%, recorded in earlier months of the year. It is, moreover, to be noted that the number of cities showing excesses over the month of the previous year is steadily increasing, and that at some points in the West and South the percentages of gain are becoming notably large. For the nine months of 1908 the decrease as contrasted with the like period a year ago is 19.9% at New York, 17.4% in the whole country and 13.5% with New York excluded. Contrasted with 1906 in the early part of 1907-08 it reached nearly 50,000 the decline at New York is 29.7% and in the whole

country 21%; but with New York excluded the loss is only 4.3%.

At the New York Stock Exchange the September 1908 dealings, as already intimated; were well in excess of the month a year ago, the comparison being between 17,582,499 shares of a par value of \$1,557,670,875 this year and 12,223,541 shares with par of \$1,088,393,825 in 1907. For the nine months, however, this year's transactions total only 134,970,765 shares, against 156,791,047 last year, and compared with 1906 the loss is much greater. Bond transactions continue appreciably heavier than in either 1907 or 1906. At other Stock Exchanges of the country dealings in bonds are of greater volume now than a year ago, notably at Boston, where the September total reached \$3,668,400, against \$547,000 in the month of 1907. Shares sales at Boston, however, were much smaller than in August and moderately less than in September of 1907.

The Canadian clearings exhibit for the month of September cannot be considered as other than favorable. For the thirteen cities included in our table, and which embrace all points having clearing-house organizations, the aggregate shows an increase over the corresponding period of 1907 of 5%, most of the cities sharing therein. The total for the period since January 1, however, is 9.3% less than the 1907 nine-months aggregate.

Cotton reports of an official nature were issued by two departments at Washington yesterday (Friday). The Census Bureau of the Department of Commerce and Labor made public at 10 a.m. a statement showing the quantity of the staple ginned to Sept. 25, and an hour later the condition report as of the same date was issued by the Department of Agriculture. The first of these reports is primarily of interest as an indication of the forwardness of the crop as denoted by the amount of the staple ginned to the date mentioned, as compared with the progress made in earlier years. In that respect it did not disappoint prevailing opinion that the crop is on the average much earlier than that of 1907, the volume of cotton ginned to Sept. 25 this year being given as 2,582,688 bales, against 1,532,602 bales to the same date in 1907, 2,057,283 bales in 1906 and 2,355,716 bales in 1905. With that fact stated, the significance of the report ceases, as it can in no sense be taken as an indicator of ultimate yield.

Reports on condition, however, which give definite information as to the situation of the crop at a certain date are awaited with more or less anxiety, and this one in particular, owing to the doubt existing as to whether the one covering date Aug. 25 fully allowed for the damage to the crop in Atlantic sections by the rains in late August. The report as issued gave the average condition on Sept. 25 as 69.7, a deterioration of 6.4 points during the month, but as it was about in line with general expectation, the cotton markets were uninfluenced by it. In every State except Oklahoma more or less deterioration was indicated, the decline in condition being most marked in Missouri, Arkansas and North Carolina. The average condition as reported, however, is 2 points higher than on the same date in 1907, to about the same lower than in 1906 or 1905, but 2.1 points better than the average for the preceding ten years. A point of importance in

connection with this report is the earliness of the crop as indicated by the progress in ginning referred to above. Consequently there is not the same occasion to fear the effect of killing frost as in most recent years, unless, of course, that adverse factor should become operative at an unusually early date. The two reports will be found to-day in our Cotton Department. In the case have a small on shifting layers.

at the part of the second

superiors today sign Naturally enough, commercial failures in the United States during September 1908 covered an appreciably smaller volume of liabilities than in the preceding month and make a much more satisfactory comparison with the corresponding period of the previous year. In fact, whereas in August the indebtedness of failed firms was largely in excess of that for the month of 1907, the September total was less than in the preceding year. Carrying the comparison back to 1906 the current aggregate of liabilities of course appears very heavy. A feature of the present, or September, statement, is the preponderance of failures among traders, the indebtedness in that division being much greater than for all other classes combined and over double the total of a year ago. But, as the large flour-milling disaster served to swell the manufacturing total in August, so the forcing to the wall of a prominent fish-dealing concern was largely responsible for the heavy trading total in September; and neither incident, by the way, should be taken as indicative of the general situation. On the contrary, Messrs. R. G. Dun & Co., whose compilations of failures are made the basis of our reflections, claim that there are many evidences that the season of liquidation is nearing an end.

The Dun statement makes the total of failures in September 806, with liabilities of \$17,298,286, which compares with 856 failures, with debts of \$18,935,227 in the like period of last year. Manufacturing disasters account for \$4,710,229 of the aggregate for September this year, against \$10,602,834 in 1907; indebtedness of traders at \$11,771,995 compares with \$4,605,406 last year, and brokers', &c., liabilities amounted to \$1,716,062, against \$3,726,987 a year ago. Bank suspensions involved liabilities of \$457,286, against \$150,000 in the month of last year. For the nine months of 1908 the total of failures was 11,946, with liabilities of \$179,677,523, which contrasts with 8,090 and obligations of \$116,036,438 in the like interval last year. In manufacturing lines the comparison is between liabilities of \$79,140,431 this year and \$62,-783,957 in 1907; trading disasters involved \$72,810,-227, against \$39,893,927, and the remaining failures covered \$27,726,825, against \$13,358,464. Financial bankruptcies numbered 147 for the nine months, against 29 in the corresponding period last year, with indebtedness of \$116,108,661 and \$12,945,669 re-

The September exhibit of failures for the Dominion of Canada is also much more favorable than that for August. Insolvencies reported numbered only 82, against 96, with liabilities this year placed at \$767,772, against \$659,278 in 1907. This year's total was made up of \$388,007 in manufacturing branches and \$379,-765 among traders, and last year manufacturing indebtedness amounted to \$252,282, trading to \$384,096 and other classes to \$22,900. For the nine months of 1908 the disasters numbered 1,221, with liabilities of \$11,828,386, against 870, and \$8,000,128 for the like period of 1907. These aggregates were made up of debts in manufacturing lines of \$4,924,857, against \$4,022,062 last year, trading \$6,263,857, compared with \$3,676,716, and others \$639,672 against \$301,-350. Two banks have suspended this year with liabilities of \$2,137,224; last year there were no failures among financial institutions up to the close of September.

It is evident from the monthly statements of earnings submitted the present week by the Pennsylvania Railroad, the anthracite coal carriers and a number of other large railroad systems, that current comparisons in the case of those roads which make it a practice to submit weekly returns of earnings are misleading and not indicative of the course of railroad earnings generally. These weekly compilations have recorded gradually diminishing ratios of loss in recent weeks and months, so much so that for the very latest week, namely the third quarter of September, the percentage of decrease is down to 3.85%. But these weekly totals cover in the first place only a very limited number of roads, and in the second place they consist almost wholly of grain-carrying and cottoncarrying lines. As it happens, both the grain movement and the cotton movement have been unusually large and free in recent weeks, and accordingly these roads are able to make improving comparisons, the gain in the grain and cotton tonnage offsetting their loss in merchandise, mineral and manufacturing tonnage. The systems, however, which traverse the manufacturing or mineral districts, and on which the crop tonnage is only a minor item, continue to record very heavy losses.

The return of the Pennsylvania Railroad furnishes an excellent illustration of the truth of this statement. This return covers the month of August. On the lines directly operated East of Pittsburgh and Erie the loss in gross earnings as compared with the same month last year reaches no less than \$3,877,600. This in amount exceeds the loss reported by these lines in every other month of the year-even the month of May, when the loss had been of exceptional proportions by reason of a pretty general suspension of coal mining in the bituminous regions, the Pennsylvania Railroad being the largest coal-carrying system in the United States. In ratio the loss on these Eastern lines is almost 25%. On the lines West of Pittsburgh and Erie the loss is not so extraordinarily heavy as in the worst of previous months, and yet reaches \$2,013,300. For the combined lines, therefore, the falling off in gross earnings for this one month has been close to six million dollars-\$5,890,900. On the Eastern lines \$2,775,600 of the loss was offset by diminished expenditures, leaving still, however, a decrease of \$1,102,000 in the net, and on the Western lines \$1,583,300 of the loss was similarly offset, leaving \$430,000 decrease in net, or \$1,532,000 decrease in net for the combined lines. Last year the combined lines for the month of August showed an improvement of \$3,682,500 in the gross and of \$876,700 in the net.

For the eight months of the calendar year the gross earnings of the Eastern lines have fallen \$22,316,400 behind and the gross earnings of the Western lines \$14,941,500, making a combined loss of \$37,257,900.

This is for only one large system. And with our railroads generally sustaining such tremendous shrinkage of their revenues, can there be any wonder that our industries remain in a state of depression? Expenses for the eight months were reduced \$16,697,900 on the Eastern lines and \$12,412,000 on the Western lines, making \$29,109,900 together, and leaving a loss in net for the combined lines in amount of \$8,148,000. In the following we furnish a comparison for the last six years for the Eastern lines, being the only portion of the system for which we have the data for such a comparison.

Lines East of Pittsburgh.	1908.	1907.	1906.	1905.	1904.	1903.
August. Gross earnings.	3 11,644,799	\$ 15,522,399	13,112,499	8 11,914,899	10,299,890	3 11,041,290

The feature of last week's bank statement, as was the case in the previous week, was a decrease in loans. The cash loss was about equal to that indicated by the preliminary estimates; deposits and, hence, reserve requirements were reduced and the statement of actual conditions on Saturday showed the important decrease in reserve of \$2,913,350, to \$47,527,625; computed upon the basis of deposits less those of \$9,242,100 public funds, the surplus was \$49,838,150. The actual decrease of loans was \$2,548,500 and the average contraction was \$6,-132,300; this was chiefly due to liquidation on the Stock Exchange. There was an average reduction of \$6,628,500 and an actual decrease of \$4,535,800 in deposits; this resulted largely from withdrawals by Boston banks. The cash loss reflected remittances by express and otherwise to interior points.

The pendency of the October settlements of interest and dividends, which amounted to about 160 millions. contributed to concentrate in the banks and trust companies early in the week large sums, but business was sluggish, and some apprehension lest there might be a renewal of disturbing political controversy induced extreme caution in trading; consequently the market for money was almost without feature. On Wednesday, however, calling of loans preparatory to the distribution of October payments caused an advance in rates to 2%, but transactions were small at this figure, and the bulk of the business was at 11/2%; the requirements for the new stock of the Northern Pacific Railroad Company were. apparently, met with funds which had been previously accumulated. The time-loan branch of the market was generally firm during the week; lenders were less free with their offerings, but at the same time there was no urgency in the demand and the business reported was in loans that will mature after the election and in January. One feature was a good inquiry for corporation notes maturing in November. and St. Louis & San Francisco obligations of this character were in special request. Comptroller Metz has, it is said, not exercised his option to sell an additional amount of revenue warrants, and he is reported to be seeking more favorable terms. The business in commercial paper was small, chiefly because of light offerings and an indisposition by banks to pay current rates.

Money on call, representing bank and trust company balances, loaned at the Stock Exchange during the week at 2% and at 1½%, averaging about 1½%; all the lending institutions quoted 1¼% as the minimum. Time loans, on good mixed Stock Exchange collateral, were 2½@2½% for sixty and 2½@2¾% for ninety days; 3½% for four and 3½% for five to six months; a round amount was placed for the shorter period, another at 3% until January and a sterling loan, falling due in that month, at 3¾%. Commercial paper was quoted at 4% for sixty to ninety day bills receivable and 4@4½% for prime four to six months single names.

The Bank of England rate of discount remains unchanged at 21/2%. The cable reports discounts of sixty to ninety day bank bills in London 11/2@ $1\frac{5}{8}\%$. The open market rate at Paris is 2%and at Berlin and Frankfort it is 3%. According to our special cable from London, the Bank of England lost £553,295 bullion during the week and held £38,017,545 at the close of the week. Our correspondent further advises us that the loss was due almost wholly to shipments to the interior of Great Britain, exports having exceeded imports by only £85,000. The details of the movement into and out of the Bank were as follows: Imports, £215,000, wholly from India; exports, £300,000 (of which £200,000 to South America and £100,000 to Constantinople), and shipments of £468,000 net to the interior of Great Britain.

The foreign exchange market was dull and without special feature this week. There was good evidence that the short interest had been largely eliminated, though there seemed to be some uncertainty regarding that which had been created as the result of operations incident to the payment in November of the 25 millions New York City revenue bonds. It was understood that Comptroller Metz had made provision, through contracts, for meeting these obligations; the bankers who had contracted for the delivery of the exchange to the Comptroller might, however, it was thought possible, still require considerable amounts which they would have to obtain in the market. Even though such should be the case, it seemed probable that they would experience no difficulty in procuring the exchange. Commodity bills against cotton and grain were freely offered early in the week, indicating a fairly large export movement of these staples, but the offerings were promptly absorbed; later deliveries of bills on September contracts contributed to satisfy requirements and the tone of the market grew easier. Rates for bankers' bills fractionally receded on Wednesday but this movement was followed by a good inquiry for remittance of interest and dividends, and the market then became steady. There appeared to be no disposition to indulge in speculative operations because of the somewhat unprofitable results of recent ventures of this character.

Compared with rates on the previous day, those on Saturday of last week were 15 points lower for long at 4 8490@4 8505, 5 points higher for short at 4 8635@4 8645 and 5 points lower for cables at 4 8655@4 8665.

On Mondaylong rose 10 points to 4 85@4 8505, short fell 5 points to 4 8635@4 8640 while cables rose 10 points to 4 8665@4 8670. On Tuesday long declined 5 points to 4 8490@4 85 and cables 5 points to 4 8660@4 8670; short was unchanged. On Wednesday long fell 10 points to 4 8485@4 8490, short 10 points to 4 8625@4 8635 and cables 5 points to 4 8660@4 8665. On Thursday long rose 15 points to 4 8490@4 8505, short fell 5 points to 4 8625@4 8630 and cables declined 10 points to 4 8650@4 8655. On Friday long rose 5 points and short and cables fell 10 points.

A DEFENSE OF NEW YORK BANKING.

The speech of Mr. Alexander Gilbert, President of the New York Clearing House now and during the panic period of last October, to the Denver Bankers' Convention this week, outlined in a clear and interesting way the relations which actually existed between the banking institutions in different sections of the country in last autumn's crisis. The financial collapse of the third week of October was peculiar among all other episodes of the kind in this country's history, in that the recourse to Clearing-House certificates was adopted at the same moment by all the banking centres of the country. In this respect it differed even from as recent an event of the kind as the panic of 1893, when Clearing-House certificates were actually issued in only a half dozen of the larger cities, the other banking centres being left, in one way or another, to their own devices.

In regard to the adoption of this policy and its after effects, there was last year much controversy, sometimes more or less bitter in tone, between the different sections of the country. It will be recalled that the Western financial centres, during the period of restriction on depositors which ensued, very generally accused the New York banks of having aggravated the trouble and actually caused some of the embarrassment which ensued, through withholding from inland banks the credit fund which had been entrusted by them to New York, and loaning it out, as it was alleged, in the speculative Wall Street market. To this allegation it was a not uncommon retort in the East that the Western banks were so far under the influence of panic themselves that they participated needlessly in the run on the New York banks, and, by demanding more of their New York balances than they had any need for, made it inevitable that New York should shut down on full payments to all depositors. In evidence of this allegation it was occasionally pointed out that shortly after the panic time banks at various Western business centres reported unnecessarily large reserves. That the Kansas national institutions, for example, were then maintaining cash reserves in the ratio of 321/2% to deposits, when 15% was all that was required by law, and when New York City's reserve ratio had fallen, as a result of the panic pressure, to $21\frac{7}{8}\%$. Instances of other interior points where the average reserve ratio of national banks ranging from 30 to 48% were similarly cited.

It has been obvious to experienced observers, from the first, that there was injustice in the accusations of both sides. The complaints against New York made no due allowance for the peculiar strain which rested on this city's institutions for maintaining solvency at the heart of the country's financial and industrial organism. The complaints against the interior failed to allow for two facts-first, that the reserve ratio reported by the inland banks in their returns to the Comptroller of the Currency included, as they by law were allowed to do, their New York balances, which were not immediately available to withstand a run at home and therefore did not fairly measure the actual cash in hand; second, that the panicky attitude of depositors in these very Western institutions, aggravated, no doubt, by their unfortunate experience of 1893, rendered it a matter of urgent during the panic-period days. As to what reforms

necessity to accumulate a large fund of cash in their own vaults for immediate use in the emergency.

Mr. Gilbert, in his address, takes up with much thoroughness the situation which then confronted the New York institutions, and shows why the events which followed were inevitable. What these Eastern institutions had to provide for in the hour of stress was, first, the re-payment of such part of our very large floating obligations due to Europe as should be recalled; second, the great volume of trust company deposits in the banks which were guarded by an insignificant ratio of cash reserves; and, third, a Stock Exchange situation which involved numerous important firms and institutions whose financial life depended on continuance of the credit which they had been enjoying at the tanks. "The paramount question," Mr. Gilbert declares, "was, could the storm be stayed before its work of devastation and ruin should spread over the entire country"? The situation, clearly, was that if a number of important houses, dependent on their credit at the banks, had been forced to the wall through denial of normal credit facilities, the network of entangling obligations would have inevitably brought the consequences of such local disasters into every other business centre of the country. Even the Western business centres will hardly have forgotten the acute strain of anxiety with which, on Thursday, Oct. 24, when the crisis of the credit panie had been reached on the New York Stock Exchange, they watched the situation. They were well aware of what it would mean to them individually, if credit could not be provided sufficient to tide over the day in Wall Street.

As regards this attitude of the banks towards the Stock Exchange in the panic period, Mr. Gilbert's review of the situation is clear and convincing. That the financial collapse itself was seriously aggravated by the extravagant speculations which had prevailed on the Stock Exchange before that time, he freely admits. "Had it not been," he adds, "for Stock Exchange demands previous to and during the panic, I doubt if money rates in this country would have at any time been much above normal." But the situation being what it was, the banks had to consider how disasters should be averted which would in many cases have been serious in proportion to the magnitude of the credit transactions which had preceded. It is perfectly true, as Mr. Gilbert points out, not only that among the members of the Stock Exchange are large and important banking houses whose business is strictly non-speculative, and that the Exchange itself represents in the volume and money value of its transactions the largest business interests in the country, but it is also true that all of the houses making up its membership are so interlaced by the mutual use of credit that a downfall in one quarter of the Exchange could not fail to have grave results in every other quarter and from the Stock Exchange to spread out its demoralizing influence throughout the country.

We imagine that, as time goes on, both the East and the West will come to a closer and fairer view of one another's position in 1907. It will be found, no doubt, that neither was wholly without blame for the particular consequences which followed the recent era of speculation, but that, on the other hand, each acted in the main on the lines of reasonable conservatism are possible in the methods pursued by either section, with a view to preventing recurrence of precisely the phenomena which disorganized finance and industry last autumn, that is a broader and much more difficult question. It involves, for one thing, the matter of a properly elastic currency which would be made available for prompt use in meeting actual demands for circulating medium at a time of general and inevitable restriction on further depletion of cash reserves. That a proper system of this sort would greatly have mitigated, if not altogether prevented, some of the most unfortunate results of last autumn's disturbance, we believe to be beyond dispute.

Mr. Gilbert suggests the possibility of some reform through which the bankers of the country, or the members of the Stock Exchange, or both combined, could modify, if not prevent, the outbreak of such excessive speculation as demoralized all the markets in the year before last October's panic. We are afraid that Mr. Gilbert has started in this direction on a somewhat difficult undertaking. Such outbreaks of speculation are the result of causes which no combination of men can control except in so far as prudent warnings and conservative policy on the part of people not engaged in the speculation will control them. The Stock Exchange itself, in connection with the report of its special committee on the events of August 22nd, has been confronted with a somewhat similar question, and has found it difficult to deal with a problem whose ultimate remedy must be the instilling of self-restraint and wisdom into the minds of speculative individuals. We doubt if the averting of financial disaster in the future can be thus achieved. The means of preventing such occurrences as last year's must be discovered, if they can be discovered at all, in the progressive adoption of conservative currency laws and conservative banking practices.

THE CHICAGO & NORTH WESTERN REPORT.

It is becoming more and more evident, as one annual report after another is being received, that as far as the larger and most prosperous railroad systems are concerned the effect of the depression in business through which they are all passing is going to be confined very largely to the cutting out of extra improvement work, which was such a feature of railroad returns in former years. During the period of great prosperity, it was the practice of the best-managed roads to devote large sums out of income each year to the carrying on of extensive work in the way of betterments, improvements and additions. Dividends were kept moderate, and thus all through the era of prosperity there were large amounts available for this purpose, and the money was employed without stint in the upbuilding of the properties.

There was an advantage all around in this policy. As far as the traveling and shipping public is concerned, it provided increased accommodations and facilities without any increase in rates. It meant, indeed, a direct decrease in rates. In the first place, to the extent that the improvements were paid for out of surplus income, the roads were not under the necessity of earning a return on the outlay in the shape of interest or dividends, which would have been the case if the excess earnings had been distributed in the form of extra dividends to the shareholders, and the money for such improvements then raised by additions to

either stock or debt. In the second place, as the effect of the expenditures was to advance the physical standard of the properties and promote economy and efficiency in operations, there was a further advantage to the public in that the companies could render transportation service at a lower cost per unit of service than would otherwise have been possible. In this two-fold element we have the key to the railroad advance of the last decade. Except for such methods, so universally employed, the decline in rates which has marked the decade must have resulted in general bankruptcy. More than that, save for persistent adherence to the same methods, a marked advance in freight rates under the advance in labor cost and the rise in the price of material and supplies could not have been averted, even while the trade of the country still remained prosperous.

As far as the roads are concerned, the advantage was that it prepared them for a period of adversity, should it come, as it now actually has come. It left them a large margin of income to encroach upon and resist the inroads on traffic and revenues sure to result from bad times. Then, also, having spent money so freely upon the properties when conditions were good, the need for similar expenditures under less favorable conditions has been reduced to a minimum. In other words, having made liberal outlays in the past, the roads are in position to forego such expenditures now that the times are bad, and income is not plentiful enough for the purpose. Dividends not having been greatly raised when the companies were flush, they should find it possible—we mean properties of superior merit, like the Chicago & North Western-to escape dividend reductions now that they have struck a lean period.

The full extent to which earnings were applied for the benefit of the properties will never be known. In many cases direct and specific appropriations of income were made for the purpose, and the amount either added to the expenses or deducted from net earnings. In such instances the matter is simple enough. Largely, however, expenditures of that description have not been labeled or earmarked, no attempt being made to distinguish between the ordinary operating expenses and the extraordinary expenditures of this nature. In these instances, there has been no means of telling how much money was employed in that manner. One could only judge from the magnitude of the expenses as a whole, and from incidental references or details that might be found in the reports. The Chicago & North Western, it would seem, employed both processes—that is, made direct appropriations of earnings for improvements and additions and at the same time heavily burdened the ordinary expenses with many of the same items. Under the reverse in business which has now come, there is consequently a correspondingly greater opportunity for savings and reductions.

The change enforced by the trade reaction is clearly apparent in the report before us. The direct appropriation the North Western management had already omitted in the previous fiscal year. It is hardly needful to state that the item was not reinstated in the year under review. What is involved in its omission will appear when we say that in 1905-06 no less than \$6,000,000 of income had been set aside for expenditures for construction, improvements and per-

manent additions. But besides the specific appropriations, the company had also been in the habit of including many extraordinary items of outlay in the ordinary operating expenses. Curtailment is now being practiced here, too.

The annual report shows the effects of business depression plainly enough, though it was an influence only during the last six months of the fiscal year. In the passenger earnings the falling off from the preceding year amounts to only \$257,503, but this does not reflect business depression, for the passenger traffic actually increased. In the number carried, the increase was 2.17% and in the number carried one mile it was 8.04%. The shrinkage in revenue followed entirely from the decrease in rate, the average realized per passenger per mile in the late year having been only 1.81 cents, as against 1.99 cents in the previous year, the decline being thus over 9%. In that decline we see the effects of the action of the different Western States in forcing lower passenger fares upon the roads.

In the freight earnings the falling off has been heavy, and here there is no decrease in rate, the average having been 8.7 mills for each of the last two years. The loss in the freight earnings as compared with the preceding year has been no less than \$4,846,314, or 10.36%. The cause of the decrease is seen in the falling off of 10.62% in the number of tons of freight carried and of 10.15% in the tons carried one mile.

Chiefly as the result of the loss in freight revenues, aggregate gross earnings from all sources fell off \$5,-140,021. The company was able, however, to offset this loss to the extent of \$2,520,781 by a decrease in expenses, reducing the loss in net to \$2,619,240. In being able to show a diminution in expenses, the experience of the North Western has been different from that of most other large systems, which quite generally record for the year an augmentation in expenses coincident with a reduction in gross earnings-vide the Atchison Topeka & Santa Fe report, on another page. The explanation of the lower expenses on the North Western is doubtless found in the fact that the expense accounts in the previous year had been burdened with large extra outlays, and that in the year under review these exceptional outlays were mainly eliminated. It is very difficult to make comparisons between the two years, owing to the fact that, by order of the Inter-State Commerce Commission, a new classification of accounts was put into effect July 1 1907 by the railroads, differing very essentially from the classification previously employed by the roads. However, in the case of two very important groups of expenses, namely those under the head of Maintenance of Equipment and those under the head of Maintenance of Way and Structures, the results for the previous fiscal year have been revised to conform substantially to the new form of classification, enabling one to trace in a general way the differences between the two years.

It appears that the charges on account of Maintenance of Way and Structures decreased \$1,030,795, and the expenditures for Maintenance of Equipment decreased \$1,450,257. This makes a reduction under the two heads of \$2,481,052, which thus accounts for nearly the whole of the total decrease of \$2,520,781 in the expenses. No comparison is furnished, in the

it is obvious from the figures just given that these items of expense in 1907-08 did not diminish to any extent, notwithstanding the shrinkage of over 10% in the volume of freight traffic. In this particular, therefore, the North Western's experience has been much like that of other roads.

In another particular its experience has been similar to other roads—we mean in having its taxes increased. The addition to taxes during the year was \$118,089. this forming an independent item distinct from the figures of operating expenses given. The company's dividend requirements were \$854,094 larger, due, not to any increase in the rate of distribution (dividends having remained 7% on the common stock and 8% on the preferred stock), but to the new stock put out just before the close of the previous fiscal year. lowing for the increased requirements, a surplus remains on the operations of the twelve months over the dividend call in the sum of \$4,874,419. This is about \$3,000,000 less than the surplus for the previous year; which amounted to \$7,830,388. But a surplus of nearly \$5,000,000 above dividend requirements in a year such as that through which the country has been passing, is evidently an excellent and a highly gratifying and creditable showing.

The company is in very easy condition financially. In reviewing the report for the previous year, we pointed out how the company's needs for the immediate future had been financed in advance (through the issue of \$24,401,625 of new common stock to the shareholders at par the previous February), and what an advantage that was. It left the company with no less than \$27,320,937 cash on hand June 30 1907. In the year under review there was no further addition to the outstanding total of the shares, while the aggregate of the funded debt was diminished in the sum of \$4,901,000, the debt having been steadily decreasing for several successive years. Besides the money necessary for this redemption of the debt, the company's construction outlays for the twelve months aggregated \$7,988,185. The sum is irrespective of the charges for real estate on account of the new Chicago passenger terminal, such expenditures being shown as a separate item in the general balance sheet. item increased during the year from \$4,909,422 to \$9.777,038. There had also been an increase of about \$1,000,000 in the aggregate of the security holdings and of advances on account of sundry proprietary roads. Altogether, the company during the year had large drafts on its cash, which consequently no longer stands at the extraordinary figure of \$27,320,-937 freached in 1907. However, the amount remains, nevertheless, quite large, being for June 30 1908 \$11,506,242. The company also holds no less than \$17,702,000 of its own bonds unsold in the treasury, and, furthermore, retains \$2,344,227 of its own stock, common and preferred, selling at a high premium in the market.

HOW THE ATCHISON STANDS DEPRESSION.

In the year ending June 30 1907 the Atchison Topeka & Santa Fe Ry. showed a surplus above its fixed charges in amount of \$21,168,724. In the year ending June 30 1908, as revealed by the present report, the surplus on the operations of the twelve months is only \$13,678,886. There are few large report, of the traffic and transportation expenses, but railroad systems in the United States which could have endured such a tremendous shrinkage without having ! passed off the list of dividend-paying properties. The Atchison, however, is able not only to show the 51/2% dividends which it paid out of the year's income (the Dec. 1907 dividend was 3% and the June 1908 dividend 21/2%) fully earned after the great loss of income referred to, but also to carry forward a credit balance to profit and loss of \$1,885,879 on the year's operations. In the fact referred to we have evidence of the strength of its income position.

The truth is, in the previous year the sum remaining above the dividend payments (aggregate dividends in that year were the same as in 1907-08, namely, 51/2%) was but little short of \$10,000,000. There was, therefore, an enormous margin of surplus income to encroach upon, and hence about the only effect of the shrinkage in revenues has been that the company has been obliged to forego the enormous contributions out of income for improvements which it made the previous year. No less than \$9,600,000 of income was applied in that way in 1906-07. For 1907-08 the corresponding contribution-termed this time "additions and betterments"-has been only \$340,331, besides which \$81,378 was appropriated to the fuel reserve fund. The surplus of \$1,885,879 above the dividends remains after these contributions.

These results bear out what we said in reviewing the report for the previous year-that should a recession in trade unfortunately come, as it actually has come, the Atchison Co. was well prepared to meet it. The elements of strength in its position we pointed out were, first, the large margin of income to encroach upon before dividends would be endangered, and, secondly, the fact that through the enormous capital expenditures on the property, fortified by the application of large amounts of income in the same way, the system was in position to move traffic with due economy and efficiency, this insuring a low cost of transportation per unit of service rendered. We mentioned as the third element of strength the growing diversity of the traffic of the system.

As a matter of fact, taking the year as a whole, the depression in trade seems to have played a relatively small part in the decline in net results. Passenger earnings did not fall off at all. The freight revenues were reduced in amount of \$4,324,879, or about $6\frac{1}{2}\%$, but the report tells us that this loss is accounted for in considerable part by a shortage of the wheat and cotton crops, this having caused a decrease of about \$2,250,000. There was also a reduction of traffic in miscellaneous merchandise and manufactured articles which occasioned a decrease of about \$2,000,000, and this shrinkage can be ascribed to trade prostration. Study of the traffic statistics shows that in aggregate tonnage there was a decrease of only 368,483 tons, or hardly more than 2%, while the agricultural tonnage was reduced 502,364 tons.

The decrease in net results is occasioned (1) by the fact that the company realized lower average rates per unit of traffic in both the passenger and the freight department; (2) by the great increase in operating cost from causes entirely beyond the control of the management; and (3) by the fact that interest charges for the twelve months were increased somewhat over a million dollars by reason of the enormous capital expenditures which the company has been obliged to make (in addition to the large appropriations of income | it is stated, is in part due to changes in the laws of

for the same purpose) in order to take care of the enormous growth in the traffic of the system. On this last point it should be noted that in the late year aggregate gross earnings, even after the loss of 33/4 million dollars from the previous year, amounted to over 91 million dollars-\$91,289,770.

The road in 1907-08 realized an average of only 9.49 mills per ton per mile on its freight tonnage as against 9.57 mills in the previous year, while passenger revenues averaged only 2.104 cents per passenger per mile as against 2.183 cents in 1906-07. President Ripley states that during the year there were no advances in rates affecting the road. There were sundry reductions—some slight, some serious—by order of State and national commissions, of which a portion, he states, are being contested before the

As for the increase in expenses, it should be observed that while operating revenues decreased \$3,725,511, operating expenses were augmented in the sum of \$2,053,260, thus producing a loss in net of \$5,778,771. The ratio of expenses to revenues rose from 62.29% to 67.12%. Of the total increase of \$2,053,260 in expenses, \$1,649,096 was in the transportation and traffic expenses. Yet there was increased efficiency of operation. This is evident from the fact that while the number of tons of freight moved one mile decreased only 2.14%, the freight car mileage was decreased 4.77% and the freight train mileage 2.53%. The number of tons of freight per loaded car mile was raised from 18.40 to 19.29 and the average trainload from 365 tons to 3661/2 tons. Notwithstanding the larger train-load, however, the trains earned only \$2 84 per mile run against \$2 93, and here, therefore, we see reflected the effect of the decrease in

The addition to expenses in face of the falling off in traffic was due to the circumstance that during the first six months of the fiscal year the business offered was more than could be promptly or economically handled, and consequently expenses ran up very fast. However, this was not the only factor in the increase in expenses, though it is one that should not be lost sight of. The change in accounting methods prescribed by the Inter-State Commerce Commission has also served materially to augment the expense accounts. The most important departure from former practice has been in the establishment of an equipment and depreciation account. The result of this, according to President Ripley, has been an additional charge of \$1,029,097 to operating account. It is pointed out that no uniform practice in this regard is being pursued by the various railroad companies and that some of them have declined to adopt the theory of the Commission as to depreciation of equipment.

Aside from the increase in ordinary operating expenses, taxes, as in the case of so many other roads, are rising in a way to furnish occasion for much solicitude. The Atchison Company during the twelve months was obliged to pay taxes amounting to no less than \$3,244,595, being 12.36% of the income applicable to the payment of bond interest and stock dividends, and \$741,945 more than during the preceding year. An increase in taxes of three quarters of a million in a single year! This additional burden,

several States and in part to the fixing of higher assessed values on the company's property. Mr. Ripley says there is no disposition to contest or evade the payment of fair taxes; but if it shall transpire that the Atchison has been taxed unfairly as compared with other property, recourse will be had to

As to the increase in fixed charges due to the constant requirements of new capital, the experience of the past year serves as an excellent illustration. It appears that during the twelve months the expenditures chargeable to capital account for the construction and acquisition of additional railways, equipment and other properties, and for additions and betterments, amounted to no less than \$22,-414,736, of which \$9,195,435 was for additional equipment alone. The net increase in the company's funded debt during the year was \$31,282,870, \$26,-056,000 of this representing the 10-year 5% convertible bonds offered to the shareholders just before the close of the previous fiscal year, but which transaction came too late to count in the results for that year. Similarly, the company has since the close of the late year on June 30 1908 sold \$17,000,000 of Trans-Continental Short Line bonds, this latter being in connection with the construction of the railways of the Eastern Railway Company of New Mexico, the Pecos & Northern Texas Railway and the Pecos River Railroad, comprising altogether about 700 miles of road. This transaction, having been consummated after the close of the year, does not appear in the accounts of the

But now new construction and capital outlays are to be rigidly restricted. Mr. Ripley points out that the recession of business found the company engaged in extensive construction and improvement work, some of which was so far advanced that it could not be suspended without great loss. Such work, therefore, was vigorously pushed and substantially completed. Other construction and improvement work, although highly desirable from the standpoint of economy of operation and good service to the public, has been entirely suspended, and will not be taken up again, he states, until conditions improve.

He refers to his remarks in last year's report, in which the hope was expressed that the public would recognize that its recent attitude toward railway companies in general has been unjust to their stockholders and bondholders, and also that unless the confidence of investors in the security and stability of railway investments is restored, it will be impossible to obtain the additional railway facilities which the country needs. There are indications now, he states, that the thinking public has begun to appreciate that the policy of harassing the railroad companies has gone too far; and doubtless this will be reflected in the action of those charged with making and administering the laws. But the Atchison directors feel that it would not be prudent at the present time to expend more capital in new construction, however desirable for the development of the country and for the benefit of the public; and therefore for the first time in the history the company, Mr. Ripley declares, there of plans in hand for the construction of are no extensions.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

-The public sales of bank stocks this week aggregate 278 shares, of which 269 shares were sold at auction and 9 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 181 shares. The prices paid were quite generally higher than those recorded for the last previous sale. Some of the advances in price were National Park Bank stock 16 points, American Exchange National 8¼ points, Merchants' National 14 points and Broadway Trust Co. 26½ points. The table below given in our usual form shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations. deposits, surplus, &c., of banks and trust companies in all important cities of the United States are published monthly in the "Bank and Quotation" Section, the October issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of the paper, and will be found to-day on pages 855 and 856. Shares. -The thirty-fourth annual convention of the American Bankers' Association, which was held this week at Denver, was marked chiefly by the attitude shown by the bankers toward the guaranteeing of bank deposits. All of the various sections at their meetings early in the week placed themselves on record as opposed to the plan, and similar condemnation of the proposition was expressed by the Association itself before the adjournment on Thursday. The resolution adopted by the main body was that submitted in the report of its Federal Legislative Committee, as follows:

Resolved, That the American Bankers' Association is unalterably opposed to any arbitrary plan looking to the mutual guaranty of deposits either by a State or the nation for the following reasons:

1. It is a function outside of State or national government.

2. It is unsound in principle.

3. It is impractical and misleading. 4. It is revolutionary in character.

5. It is subversive of sound economics.
6. It will lower the standard of our present banking system.
7. It is productive of and encourages bad banking.

8. It unjustly weakens the strong and unfairly strengthens the weak

9. It discredits honesty, ability and conservatism.

10. A loss suffered by one bank jeopardizes all banks.

The public must eventually pay the tax.
 It will cause and not avert panics.

The bankers also condemned as "unwise and hurtful all proposals to establish postal savings banks."

The report of the Currency Commission presented at Thursday's session recorded the work of this committee toward securing the enactment of the bill recommended by the Association and noted that the passage of the Aldrich-Vreeland Bill, while not wholly approved of, is nevertheless regarded as a progressive step. A recommendation to continue the Commission was approved.

The new officers of the association are: President, George M. Reynolds, President of the Continental National Bank of Chicago; Vice-President, Lewis E. Pierson, President of the Irving National Exchange Bank of New York; Chairman of the Executive Council, F. O. Watts, President of the First National Bank of Nashville; Secretary (re-elected), F. E. Farnsworth of New York; Treasurer, J. C. Mitchell, Cashier of the Denver National Bank of Denver, Colo., and Assistant Secretary (re-elected), William G. Fitzwilson.

The Trust Company Section elected the following officers: President, A. A. Jackson, Vice-President of the Girard Trust Co. of Philadelphia; Vice-President, H. P. McIntosh, President of the Guardian Savings & Trust Co.; Secretary, Philip S. Babcock of New York.

The newly-elected officers of the Savings Bank Section are: President, J. H. Johnson, President of the Peninsular Savings Bank of Detroit; First Vice-President, William R. Creer, Secretary Cleveland Savings & Loan Co., Cleveland; Secretary (re-elected), William Hanhart of New York.

The officers of the Clearing-House Section are: President, E. C. McDougal, President of the Bank of Buffalo, Buffalo, N. Y.; Vice-President, Sol. Wexler, Vice-President Whitney-Central National Bank, New Orleans; Secretary (re-elected), F. E. Farnsworth.

An invitation to hold next year's convention at Chicago extended by George M. Reynolds, was accepted.

The full report of the proceedings of the convention will appear in our annual number, the "Bankers' & Trust" Section, to be issued next Saturday, Oct. 10.

—A New York Stock Exchange membership was transferred this week for \$65,000. The last previous sale is reported as \$68,000.

—The Pittsburgh Stock Exchange was closed on Thursday on account of the military and civic parade which formed part of this week's celebration of the one hundred and fiftieth anniversary of the birth of the city. The banks and brokers' offices, however, remained open as usual. The Exchange was also closed on Wednesday, Sept 30, this being "Founders' Day."

—The Irving National Exchange Bank of this city, in noting a correction to be made in its calendar for 1908, calls attention to a change by the New York Legislature in the law with reference to allowing a rebate in taxes when payment is made in October. Under the amendment this rebate is abolished. We print the circular letter of the bank herewith:

In December last, when we published our calendar for 1908, the laws of this State provided, and we so stated under the calendar for the month of October, that "a deduction at the rate of 6", per annum, calculated from the date of payment to the last day of December, will be made on all taxes paid before November 1st."

The Leistern days the state of the last day is the last law and the tax law measures.

The Legislature during the past session amended the tax law relating to the payment of taxes by Chapter 447 Laws of 1908, taking effect May 21st 1908, by providing that there shall be no rebate, as heretofore, for the taxes paid before November 1st, also providing that it shall be the duty of the Tax Receiver to collect and receive upon all taxes remaining unpaid on and after the first day of November interest at the rate of seven per cent per annum, to be calculated from the day on which the taxes became due and payable.

The taxes are still due and payable the first Monday in October.

—James W. Paul Jr. of Philadelphia, a member of the firms of J. P. Morgan & Co. of New York, Drexel & Co. of Philadelphia and Morgan, Harjes & Co. of Paris, died suddenly on the 25th ult. at Hot Springs, Va. Mr. Paul was fifty-seven years of age. He had been associated with Drexel & Co. for many years, but, owing to ill health, had retired from many of the corporations with which that house has been identified. At his death he was a director of the Fidelity Trust Company of Philadelphia and the Huntingdon & Broad Top RR. Co. Out of respect to his memory the offices of J. P. Morgan & Co. were closed at 3 o'clock on Monday, the day of the funeral.

—All of the members of the failed firm of A. O. Brown & Co., with the exception of G. Lee Stout, who was said to be ill, were placed under arrest on the 25th ult. on warrants charging grand larceny. Those arrested were Albert O. Brown, Samuel C. Brown, Lewis Ginter Young, Walter Rhea Whitman and Edward F. Buchanan. The warrant was issued on complaint of a woman customer, who charged, it is said, the larceny of stocks valued at a total of \$1,804. The accused were released under bail of \$2,000 each, and the hearing set for October 5.

Suit has been brought against the firm by A. M. Fuller & Bros. of Pittsburgh for the recovery of \$543,000, the amount of cash subscriptions, it is stated, to the stock of the Santo Domingo Gold & Copper Co. promoted by A. O. Brown & Co. and Whitney, Stephenson & Co. of Pittsburgh. It is said that while Messrs. Brown & Co., as financial agents and bankers of the mining company, had agreed, with the failure of the scheme, to return to all stockholders the amount of their subscriptions, this was not done in so far as the subscribers through the Pittsburgh house were concerned. It is in the interest of these shareholders that the action has been instituted.

—Jacob Rubino, an investment broker with offices at 3 Broad Street, this city; died on Monday after an illness of several years. He was sixty-seven years old.

—Charles M. Schwab has been elected a director of the Greenwich Bank of this city.

—The stockholders of the Mutual Alliance Trust Co. of this city ratified on Monday last the proposition to increase the capital from \$500,000 to \$700,000, referred to in our issue of September 12. They also approved the plan of providing for the new capital through the transfer of \$200,000 from the surplus fund, each stockholder receiving additional stock at the rate of two shares for every five held, thus declaring a stock dividend of 40%. The company's surplus and profits on June 30 last stood at \$528,500.

—Owing to the death of Charles L. Hallgarten, a special partner, the firm of Hallgarten & Co., which was established about sixty years ago, has been re-constituted under the same firm name with Henry H. Wehrhane, Harry Bronner, Casimir I. Stralem, Max Horwitz and Ludwig Treitel as general partners and Sigmund Neustadt, Henry Budge, Carl Furstenberg, and Hugo Blumenthal as special partners. Mr. Horwitz, one of the new partners, has been Manager of the Amerika Bank of Berlin, and Mr. Treitel, the other new partner, has been associated with the Berliner Handelg-Gesellschaft, Berlin. Hallgarten & Co. will continue to act, as heretofore, as sole representative in this country of the Berliner Handels-Gesellschaft.

—The National Shawmut Bank of Boston, Mass., increased its quarterly dividend, payable on Oct. 1, from 2% to 2½%, thus raising the annual payments from 8% to 10%. The stock has been on an 8% basis since January 1906, when the rate was advanced from 6%. The bank has a capital of \$3,500,000.

—Samuel N. Aldrich, President of the State National Bank of Boston and formerly Assistant Treasurer of the United States at Boston, died on the 27th ult. Mr. Aldrich was born in 1838. He had at one time been a member of the Massachusetts State Senate, and had also been prominent in railroad affairs. He was appointed Assistant United States Treasurer at Boston in 1887, resigning in 1890 to take the presidency of the State National Bank.

—During Founders' Week celebration by the City of Philadelphia, which begins on Monday next, Oct. 5, the Farmers' & Mechanics' National Bank of that city will have on exhibition a number of interesting papers, books and articles which have come into its possession since its organization more than one hundred years ago. Luncheon is to be served at the bank from Monday until Friday, the 9th, inclusive, from 12 o'clock noon until 3 o'clock.

—James S. Kuhn this week assumed the presidency of the First National Bank of Pittsburgh, having been elected to the post on the 25th ult. to succeed Frank H. Skelding, who resigned because of the demands upon his time as receiver of the Wabash-Pittsburgh Terminal RR. and the West Side Belt Line. Mr. Skelding's time is also largely taken up in connection with the reorganization of the Westinghouse Electric & Mfg. Co. Mr. Kuhn, the new head of the bank, is also President of the Pittsburgh Bank for Savings. His brother, W. S. Kuhn, a Vice-President of the last-named institution, has been elected First Vice-President of the First National to fill the vacancy caused last month by the death of Thomas Wightman.

—John McChirg, President of the Cosmopolitan National Bank of Pittsburgh, which was closed by the Comptroller of the Currency on Sept. 5, died on the 28th ult. as a result, it is said, of shock received following the closing of the bank.

The Maryland Bankers' Association, at its annual meeting on the 17th and 18th ult., adopted a resolution requesting the Governor to name a committee to study and investigate the question of banking laws, with a view to providing the State with an adequate system for the supervision and regulation of banks through the creation of a State Banking Department. It is proposed to have the committee confer with a committee representing the Bankers' Association. Another resolution adopted provides for the appointment of a committee of five to investigate the question of State bank taxation and report at the next annual meeting.

—The Commercial Bank of Lima, Ohio, has been merged in a new institution organized under the name of the German-American Bank. The latter has a capital of \$100,-000. Its officers are Henry Deisel, President; W. L. Mackenzie, Vice-President; George Feltz, Cashier, and M. C. Purtcher, Assistant Cashier.

—James M. Barnett, President of the Old National Bank of Grand Rapids, Mich., died on Sept. 19 at the age of seventy-six years. Mr. Barnett had been connected with the institution and its predecessor, the First National Bank since its establishment, in 1854. He had been President since 1895, having up to that time served as its Vice-President. Mr. Barnett had also for many years been identified with the lumber industry and was interested in numerous local enterprises; he was a director of the Michigan Trust Co., the Grand Rapids Gas Light Co., the Michigan Barrel Co., &c.

—A. W. Margraff, Manager of the foreign exchange department of the American Express Co. in Chicago, was on Oct. 1 transferred to New Orleans, where, for the winter months, he will attend to the purchase of cotton bills of exchange, which has become in recent years a very large and important branch of the express company's business. Mr. Margraff was for years in charge of the foreign exchange department of the National Bank of the Republic, Chicago, before coming to the American Express Co., and is the author of "International Exchange," now in its third edition, one of the most successful publications on the subject. While Mr. Margraff is absent from Chicago, Herbert C. Elves, Assistant Manager of the department for nearly five years, will attend to the foreign exchange business of the office.

—By the reports, in answer to the call of the United States Comptroller of the Currency for statements of condition on Sept. 23, the sixteen Chicago national banks had aggregate deposits of \$370,000,000, which establishes a new record. This is an increase of nearly \$8,000,000 over the returns made on July 15th. The increase in cash resources is \$3,140,000 and of loans \$5,275,000.

The national banks showing increased deposits of over \$1,000,000 were: Corn Exchange, \$1,835,000; Continental, \$1,350,000; First National, \$1,215,000; Commercial, \$1,200,000, and Bankers', \$1,035,000.

Reports of 42 State banks in and around Chicago at the commencement of business Sept. 24th, in response to the call of the Auditor of Illinois, show an increase of deposits slightly under a million dollars in comparison with the reports of July 16. Their aggregate deposits are now \$356,338,655. The banks showing greatest increase in this period of ten weeks are: First Trust & Savings, \$1,900,000; American Trust & Savings, \$1,800,000; State Bank of Chicago, over \$1,000,000; Northern Trust Co., nearly \$800,000; Central Trust Co., nearly \$600,000.

The reports of the savings departments of these State banks are said to show a total of \$145,923,992, a decrease of \$896,465 since the report of July 16. The amount is reported to be only slightly in excess of that for May 12, which was the smallest total given in any official report of the banks issued since the panic last year.

. —F. J. Scheidenhelm has resigned as Assistant Cashier of the American Trust & Savings Bank, Chicago, to accept a position as Cashier of the State Bank of Evanston, Ill. He assumed his new duties October 1, succeeding William G. Hoag, who resigned to take up his residence in California. Mr. Scheidenhelm's previous banking experience was as Cashier of the Federal Trust & Savings Bank until it was merged in the American Trust & Savings, and as Assistant Cashier in the old Merchants' National Bank until it was absorbed by the Corn Exchange National.

—The United States National Bank of Denver and the National Bank of Commerce of that city were consolidated a week ago under the title of the first-named institution.

The United States National has increased its capital from \$200,000 to \$500,000—the amount at which the Commerce was capitalized. The consolidation was brought about, it is stated, through the desire of D. H. Dougan, President of the National Bank of Commerce, to retire from active business. Gordon Jones, who has been Vice-President of the United States National Bank, has become President of the enlarged the Park Bank.

institution, and W. A. Hover, previously at the head of the bank, continues in the management as Chairman of the Board. The other officers are: Henry T. Rogers and A. C. Foster, Vice-Presidents; W. B. Morrison, Cashier; and James Ringold, Assistant Cashier. Vice-President Foster had been Cashier of the United States National since its organization in 1904, while Mr. Morrison had held the cashiership in the National Bank of Commerce. The two institutions had deposits of about \$2,500,000 each.

—A stand against the guaranty of deposits was taken by the Nebraska Bankers' Association at its annual session held at Lincoln on Sept. 24 and 25. The sentiment of the bankers was expressed in the following resolution, which was adopted by a vote of 68 to 37:

Resolved, That we favor the enactment of any law, State or National, which would tend to produce greater stability to our banking institutions or afford greater safety and security to depositors; but that we are opposed to the enactment of any general law of guaranty which imposes a special tax, believing that such a law would impose an unlimited or unknown liability upon every banker subject thereto: that it surfair and unjust to compel the honest, conservative and experienced banker to become liable for the dishonest, incompetent and inexperienced one; that it would lower the standing of banking and would invite into the field the unreliable and inexperienced; that the principle of forcing one man or corporation to guarantee to pay the debt of another, contrary to his will, is both wrong in morals and conflicting with all established principles of law and justice.

Addresses dealing with the subject were presented to the meeting by Myron T. Herrick, of the Society for Savings, Cleveland, and Prof. James L. Laughlin, of Chicago University, both of whom declared themselves decisively against the scheme. A message from James J. Hill, Chairman of the Board of the Great Northern RR., was also read at the convention, in which he characterized the deposit-guaranty plan as bad banking and bad morals. According to the Omaha "Bee," he urged the members to use their influence toward bringing about a cessation of agitation having for its purpose still further legislation for the regulation of corporations. He referred, too, to the fact that the business interests of the country require time and opportunity to recover from the shock which, he asserts, destructive legislation has given them, and offered it as his opinion that it would be a good thing if a period of from five to ten years be allowed to lapse without the meeting of any legislative body.

—The organization of the New National City Bank of Birmingham, Ala., was perfected on Sept. 4, when the following officers were elected: Lewis Minor, President; Ben T. Head, Vice-President and Cashier; Thomas Stobert and Charles M. Spencer, Assistant Cashiers. The application to organize the institution was approved last May. It is to have a capital of \$500,000 and surplus of \$400,000, and will begin business about Nov. 1 in temporary quarters in the Woodward Building.

—The Comptroller of the Currency has approved the application to convert the Union Bank & Trust Co. of Dallas, Texas, into the Union National Bank. The proposed change was referred to in our issue of Aug. 8.

—As a result of the new rule of the Los Angeles Clearing-House Association, operative on Sept. 1, under which members are prohibited from clearing for other banks or trust companies having a paid-up or unimpaired capital of less than \$200,000, several consolidations are now under way. According to the "Los Angeles Times" an arrangement to consolidate has been entered into between the Market & Produce Bank, capital \$50,000, and the Main Street Bank, capital \$30,000; the institution growing out of the consolidation will take the name of the Traders' Bank. It has already completed arrangements, it is said, for a capital of \$160,000, which will be immediately increased to \$200,000.

The Western State Bank, capital \$50,000, has already also united with the Merchants' Trust Co., capital \$500,000. The bank formed through this union takes the name of the Merchants' Bank & Trust Co. It has a capital of \$300,000 and surplus of \$200,000.

The International Savings & Exchange Bank, with a paidup capital of \$174,000, is to increase the amount to \$200,000 and the Bank of Southern California has also announced its intention of increasing its paid-up capital from \$100,000 to \$200,000.

Following the adoption of the resolution by the Clearing House last February, the Dollar Savings Bank & Trust Co. and the Central Trust Co. consolidated under the name of the Park Bank

Canadian Bank Clearings.—The clearings of the Canadian banks for the month of September 1908 show an increase over the same month of 1907 of 5.0%, and for the nine months

Clearings by Telegraph-Sales of Stocks, Bonds, &c. Clearings by Telegraph—Sales of Stocks, Bonds, &c.—The subjoined table, covering clearings for the current week, usually appears on the first page of each issue, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from other leading cities. It will be observed that, as compared with the corresponding week of 1907, there is a decrease in the aggregate of 13.2%. So far as the individual cities are concerned, New York exhibits a loss of 14.5%; Boston, 10.1%; Philadelphia, 23.1%; Chicago, 14.1%; St. Louis, 11.6%; Baltimore, 24.5%, and New Orleans, 30%.

Monetary Commercial English News

London, Saturday, Sept. 19 1908.

There has been a check given this week to the general upward movement upon the Stock Exchange. Largely, this is due to the check in New York. But principally, it is the result of nervousness on the Continental bourses respecting possible difficulties between Germany and France with regard to Morocco. Nobody believes that war will ensue, but there is a general fear that the German Government, in its desire to carry its taxation proposals in the coming session of the Reichstag, will appeal to the patriotic feelings of the people by taking an unpleasant attitude in regard to Morocco. Furthermore, operators in Berlin have been encouraged by the great rise in the New York Stock Exchange to put up prices in Berlin unduly, and a reaction was inevi-There is a recovery in some branches of trade in Germany, especially in the electrical industry. But the iron and steel trades are extremely depressed and it is notorious that large numbers of mercantile and other houses have been carried by the banks up to the present in the hope that they will be able to pull through, and that now the banks are compelling them to pay up. This has brought about a general decline in quotations on the German bourses, which has reacted upon Paris and London.

In Paris there is a natural nervousness because of the attitude of Germany in regard to Morocco, and there is also a disposition to make every possible preparation for the great Russian loan which is to come out some time during the current year. Lastly, here at home there has been a very considerable rise in prices during the past two months. In the South African mining market the rise has been very considerable indeed. In some cases it has been quite 50% and in other cases it has been nearly 100%. It is true that the depreciation in the South African market had been carried extremely far. Still, a rise ranging from 50 to 100% means a considerable speculation, and a reaction was inevitable.

There is no apprehension anywhere that the reaction will degenerate into a rout. On the contrary, the best opinion here is that prices are still moderate, that the great improvement which has taken place in the gold industry in South Africa fully justifies a large rise, but that just now there is too much speculation in it, and that what is desirable is to shake out the weak speculators and get the shares into strong hands. That this will be accomplished quickly, is generally expected.

But perhaps of all the causes which have brought about the setback here, the most powerful is the fear of labor troubles during the autumn and winter. That there is an exceptionally large number of people out of employment in the great manufacturing centres unfortunately is beyond dispute. Among these unemployed there is an impatient temper, as was shown the other day in Glasgow, when Prince Arthur of Connaught was hooted because he had consented to perform a public function when in the opinion of the un-Arthur of Connaught was hooted because he had consented to perform a public function when, in the opinion of the unemployed, all the moneys which the public authorities could control ought to be used to give employment. In addition to this there is a great strike threatened in Manchester. The Lancashire cotton trade has suffered greatly during the past year, partly as a result of the shrinkage of trade all over the world, partly because of the distress in India, and, partly, also, because of the great increase in both spindles and looms recently in Manchester. For the moment, the producing power is much larger than the consumptive de-

partly, also, because of the great increase in both spindles and looms recently in Manchester. For the moment, the producing power is much larger than the consumptive demand. It is feared that if the strike takes place it will affect millions of people, and many, therefore, are looking forward to the winter with great misgivings.

Money continues both plentiful and cheap. All the gold offering in the open market is taken regularly every Monday, either for the trade or for India or for the Continent. Yet rates do not rise in London, and the best opinion is that we shall go through the autumn with money remaining exceptionally plentiful and cheap. As we write, the prevailing belief is that no gold will be taken for Egypt during the present month. Next month it is probable that gold will be taken. But the best opinion is that the total amount required will be only about 3½ millions sterling, or, at the outside, 4 millions sterling. Regarding Argentine, it is not possible to speak with equal confidence, for nobody can foresee yet what the crops will be. They will continue to be exposed for a considerable time yet to the weather and the locusts. At the outside, however, it is not thought likely that the Argentine demand will be larger than the Egyptian, at all events during the current year.

The India Council offered for tender on Wednesday 50 lacs of its bills, and the applications amounted to 397 lacs, at prices ranging from 1s. 3 15-16d. to 1s. 3 31-32d. per rupee. Applicants for bills at 1s. 3.31-32d. per rupee were allotted about 91% of the amounts applied for.

Statement of New York City Clearing-House Banks .-Statement of New York City Clearing-House Banks.—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending Sept. 26. The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement for Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

We omit two ciphers (00) in all cases.

Banks 00: omitted.	Capital.	Surplus.	Louns. Average.	Specie .	Legals. Average	Deposits. Average.	Re-

+ Increase over last week. — Decrease from last week.

a Includes bank notes. b After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to \$859,901,200; an increase of \$920,200 over last week's figures.

New.—in the case of the Clearing-House banks, the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shows. The Clearing-House actual figures included United States deposits amounting to \$9,242,100, a decrease of \$15,0,400 from last week, averages include United States deposits of \$9,336,200, an increase of \$19,500 over last week.

"Reserve on deposite" includes, for both trust companies and State banks, nest only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks innew York City City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cues need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds. While in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 5% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

Wall Street, Friday Night, October 2 1908.

The Money Market and Financial Situation.—A history of the week's operations at the Stock Exchange may be briefly written. The excitement noted in our last issue had spent its force by the end of the week and on Monday the market was dull and steady. As the week progressed the volume of business steadily diminished until to-day and prices have generally fluctuated within a relatively narrow

prices have generally made and prices have generally many at the property of the market itself there is little more to be said. The late "political scare" has had its effect and the prevailing attitude at the moment, of investor and speculator alike, is one of waiting. Perhaps a new interest in Exchange matters will develop after Nov. 3d, but there is opinion, more or less general, that industrial activity will be held in abeyance until the tariff schedules have been revised, a measure, as is well-known, to which both political parties are pledged.

A somewhat enlarged railway traffic is observable in some parts of the West. This is due largely, if not wholly, to the crop movement, and therefore cannot be regarded as of a permanent character; while similar reports from Eastern systems, including such important ones as Pennsylvania, Reading and Lehigh Valley, continue to make very unfavor-

The money market was not disturbed, as it has sometimes been, by the shifting of accounts incident to October 1st disbursements. Call-loan rates did not go above 134% yesterday and time-loan rates continue to be abnormally low for the season, although there is a steady demand from the interior for funds for grow moving purposes

low for the season, although there is a steady demand from the interior for funds for crop-moving purposes. The open market rates for call loans at the Stock Exchange during the week on stock and bord collaterals have ranged from $1\frac{1}{4}\%$ to 2%. To-day's rates on call were $1\frac{1}{4}(@1)\frac{1}{2}\%$. Commercial paper quoted at 4% for 60 to 90 day endorsements and $4(@4)\frac{1}{2}\%$ for best single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £553,295, and the percentage of reserve to liabilities was 53.15, against 54.28 last week. The rate of discount remains unchanged at $2\frac{1}{2}\%$ as fixed May 28. The Bank of France shows a decrease of 2,625,000 francs gold and 5,575,000 francs silver.

May 28. The Bank of France shows a decrease of 2,020,000 france silver.

The New York City Clearing-House banks in their statement of averages for the week ending September 26 showed a decrease of \$1,836,100 in the reserve held and a surplus of \$50,039,550 over the required reserve, against a surplus of \$50,218,525 the previous week.

Note.—The Clearing House now issues a statement weekly showing the total the sctual figures on Saturday morning. These figures, together with the return of separate banks, also the summary issued by the State Banking Departme showing the condition of State banks and trust companies not reporting to tolearing House, appear on the preceding page.

Foreign Exchange.—The market was dull, generally lower and without special feature this week, closing easy.

To-day's (Friday's) nominal rates for sterling exchange were 4 85½@4 86 for sixty day and 4 87@4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 849@6 4 8510 for long 4 8615@4 8620 for short and 4 8640 @4 8650 for cables. Commercial on banks 4 8450@4 8460 and documents for payment 4 83¾@4 84½. Cotton for payment 4 83¾@4 84. Cotton for acceptance 4 8450@4 8460 and grain for payment 4 84@4 84½.

To-day's (Friday's) actual rates for Paris bankers francs were 5 18½@65 18½ for long and 5 16¼@5 16¼d for short. Germany bankers marks were 94½@94 15-16 for long and 95 5-16@95½d for short. Amsterdam bankers guilders were 40 27@40 29 for short.

Exchange at Paris on London to-day 25f. 12c.; week's range 25fr. 12c. high and 25fr. 11½c. low.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying 50c. per \$1,000 discount; selling 75c. per \$1,000 premium. Charleston selling \$1 per \$1,000 premium. New Orleans bank 75c. per \$1,000 discount; commercial \$1 per \$1,000 discount. Chicago 35c. per \$1,000 discount. St. Louis 5c. per \$1,000 discount. San Francisco 80c. per \$1,000 premium. \$1,000 premium.

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week.

Transactions in the market for railway bonds have been exceptionally limited, amounting to only about half the recent average, and the market has been almost featureless.

Rock Island issues have been relatively conspicuous, the 4s and coll. trust 5s having advanced 2 and 3 points respectively. Consolidated Gas 6s are 1½ points higher, St. Louis & San Francisco ref. 4s 1¼ and a few other issues have advanced fractionally. Practically no bonds show a decline.

United States Bonds.—No sales of Government bonds have been reported at the Board this week. The following are the daily closing quotations; for yearly range see third page following.

		Interest Periods	Sept. 26	Sept. 28	Sept. 29	Sept.	Oct.	Oct.

* This is the price bid at the morning board: no sale was made.

Railroad and Miscellaneous Stocks.—Conditions in the stock market have been quite the reverse of those which prevailed last week. Beginning with a small aggregate on Monday the daily transactions steadily grew smaller until on Thursday they were of mid-summer proportions. To-day's market has been more active, and prices showed a decided tendency to advance. This movement was led by Rock Island preferred, which advanced nearly 4 points during the day, and Union Pacific, which closes over 4 points higher than last night, under the influence of a relatively favorable traffic report.

Canadian Pacific has been a strong feature throughout the week and closes with net gain of over 5 points. On the other hand several stocks are lower, including North West., Illinois Central, Northern Pacific, General Electric and the U. S. Steel issues. As a result of the week's operations a list of 25 active stocks shows 15 higher, 6 lower and 4 unspections.

For daily volume of business see page 864.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period The returns of the street railways are brought together separately on a subsequent page.

1 10 1	Latest G	ross Earn	ings.	July 1 to I	atest Date.		Latest C	ross Earn	ings.	July 1 to I.	atest Date.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Sept. 26 1908. The next will appear in the issue of Oct. 24.

c These figures are for consolidated company. d These are results for main line. I No earnings for Detroit Jackson & Chicago Ry. for Jan. 1907 included in these figures. k Does not include the Charing Cross Euston & Hampstead Ry. for first six months of 1907. I Decrease due to Jamestown Exposition last year.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting, as is done to-day:

—Ret Earnings——Net Earnings—

ANNUAL REPORTS.

Annual Reports .- An index to annual reports of steam Annual Reports.—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will not include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Sept. 6. The next will appear in that of Oct. 31.

Chicago & North Western Railway.

(Report for Fiscal Year ended June 30 1908.)

The report of the President, Mr. Marvin Hughitt, will be found on subsequent pages.

Comparative tables, compiled for the "Chronicle," are as follows:

a In 1908 \$340,332, which was charged against the year's income, was deducted, and also \$145,616, the amount of Santa Fe Pacific lands sold.

b The expenditures for "improvements" during 1906-07 (\$9,383,160) and for purchase of Denver Kansas & Gulf Ry., &c. (\$603,040), together aggregating \$10,186,200, are given in the balance sheet as only \$356,200, \$0,-600,000 having been charged against the year's income and \$200,000 against land sales.—V. &7. p. 676, 643.

Chicago St. Paul Minneapolis & Omaha Railway Co.

(Report for Fiscal Year ending June 30 1908.)

President W. A. Gardner, under date of Sept. 22, reports in substance:

In substance:

General Results.—On July 1 1907 the new classification of accounts prescribed by the Inter-State Commerce Commission became effective. It is therefore not practicable t furnish, in detail, accurate comparisons with the previous facal year. The results of that year, however, have been revised to conform substantially to the new classification, and the comparisons in this report, while approximate, will indicate in a general way the fluctuations of the two years.

The number of passengers carried one mile increased 12.63%, but th' average rate per passenger per mile decreased from 2.261 cts. to 1.979 cts., or 12.47%. The number of tons carried one mile decreased 12.63%, but th' average earnings received per ton per mile increased 14%. The expenditures for maintenance of way and structures included the cost of 7.452 tons of new steel rails laid in 59.67 miles of track, the greater portion of which replaced rails of lighter weight; the cost of 359.930 new ites; the cost of ballasting 16.70 miles with gravel and 14.16 miles with cinders and slag; also the cost of replacing wooden bridging with permanent work aggregating 2.602 feet.

Extension, &c.—The extension from Newcastle to Wynot, Neb., 18.44 miles, was opened for traffic Oct. 25 1907. Work has begun on an extension of the line easterly from Draper, Wis., about 9.35 miles. The second main track from Augusta to Altoona, Wis., 18.98 miles, was put in operation of the balance of \$270,237 to credit of improvement fund June 30 1907, \$89,670 was expended for increased weight of rails (\$36,020), buildings. &c.

Bonds.—The funded debt was increased \$276,582 by the issuance of consolidated mortzage bonds. at \$15,000 per mile, on the extension from solution of the proper section of the consolidated mortzage bonds. at \$15,000 per mile, on the extension fon solution of the consolidated mortzage bonds. at \$15,000 per mile, on the extension fon solution of the consolidated mortzage bonds. at \$15,000 per mile, on the extension form

have, \$03,070 was expended for increased weight of rails (\$36,020), buildings, &c.

Bonds.—The funded debt was increased \$276,582 by the issuance of consolidated mortrage bonds, at \$15,000 per mile, on the extension from Newcastle to Wynot, Neb., about 18 miles. St. Paul Stillwater & Taylor's Pails RR, 78, \$334,800, matured Jan. 1 1908, and were replaced with consols; \$80,000 consols were issued in exchange for Chicago St. Paul & Minneapolis Ry. first mortrage bonds and \$1,311,000 consols were sold during the year.

Land Department.—The net receipts from all grants were \$45,945; 9,471 acres were disposed of during the year, seaving 141,182 acres unsold.

Statistics.—The operations, earnings, expenses, charges,

&c., were as follows	3:

New York New Haven & Hartford Railroad.

(Report for Fiscal Year ending June 30 1908.)

President C. S. Mellen, Sept. 18 1908, wrote in substance:

President C. S. Mellen, Sept. 18 1908, wrote in substance: Change in Accounting.—The general statement for the year 1906-07 was made up on the basis of a consolidation of the balance sheets and income accounts of all the companies controlled in the interest of your company, excepting only the New York Ontario & Western and Central New England Rallway companies, but through the disagreement of the various tables made to the several State commissions and the Inter-State Commerce Commission for the New York New Haven & Hartford RR. Co. proper, there resulted a great deal of misunderstanding. It has therefore been deemed advisable to make the general statement for the year 1907-08 conform to that published for the year 1905-06, including in a foot note to the balance sheet any obligations of controlled companies for which the company has become responsible, and in the income account only such earnings as have been received or been declared in the form of dividends on stocks owned by the company and the interest received on loans.

General Results.—The year opened, July 1 1907, under the most promising conditions. The earnings for the first quarier exceeded all expectations, and the pressure was such there was little chance for economy. The demands of the public led to large commitments for new equipment, for the climination of crossings, for additional yards and sidings and for additional such as the company and he previous year, but in December the access of the and the first decrease in the company's earnings for several years was manifest.

Monthly Earnings for the Year Entire June 30 1908, and Junesse or December 2019.

Monthly Earnings for the Year Ending June 30 1908, and Increase or De-crease Compared with 1906-07.

Gross.	Increase.	1		Gross.	Decrease.
July 1907\$5,029,598	\$347,309			3,679,417	\$628,965
Aug. 1907 5,350,064	534,955		1908	_3,359,707	389,422

Dec. 19074,172,048I	ec283,733	June	1908	_4,357,266	613,789

Nov. 1907 — 4,747,661 — 5,146 May 1908 — 4,132,684 — 900,482 — 900,482 — 1007 — 4,772,048 Dec. 3,733 June 1908 — 4,357,266 — 613,739 — The loss in earnings was for a long time confined to the freight business. but during the past summer the change in passenger business has been quite marked.

Operating Expenses.—It was a difficult task to reduce the expenses. The public have yielded, although most unwillingly, to a moderate reduceling in the reduced in numbers but not in their rate of compensation; the officials have had a cut in salaries, but the great items of operating cost are still at the highest mark of the most prosperous times of recent years, and, unless labor and those controlling the price of materials share the necessary liquidation, it is inevitable but the great items of operating cost are still at the highest mark of the most prosperous times of recent years, and, unless labor and those controlling the price of materials share the necessary liquidation, it is inevitable to be a superior of extreme depression, but it is impossible for any one interest to bear the burden of high prices for the major prition of what c natitutes its cost of production, and with a crustantly diminishing volume of business be barred from receiving a sufficiently remunerative return upon the same.

During the last quarter of the year our expenses were reduced to about as low a point as was possible without impairing the material condition of the property. Our earnings are about on the basis of 1905-06.

Dividends.—It has been the policy of the company to preserve a stable rate of return to its tockholders. The company has realized for the stockholders. The company has realized for the stockholders of 1905-08.

Dividends.—It has been the policy of the company to preserve a stable rate of return to test ockholders. The company has realized for the stockholders of 1905-08.

Dividends—it has been the policy of the company to preserve a stable rate of the property in dicates that an 8% dividend amounts to a return to stockho

struction between Seymour and Waterbury is complete except the Naugatuck passenger station, which will be finished about Sept. 30 1908.

The new high-grade main tracks in Waterbury have been set that services and the entire improvement should be completed by April 1909. The second track between Danbury and Hawleyville has been completed. The improvements at the Morgan St. freight yard, Hartford, Conn., are practically completed. The second track between Waterbury and Bristol is practically completed as far east as Greystone. In October 1907 work was suspended between Greystone and Bristol, including the Terryville tunnel, and has not yet been resumed.

The work of providing additional tracks and widening the cut through the City of New Haven is practically completed; four tracks, with necessary signals, &c., having been put into operation during the year, and the tunnel should be entirely complete on or about Sept. 30 1908: the new drawbridge over the Seekonk River is in place and it is expected that the remaining construction work will be completed, and a complete change from steam to electric traction for all passenger service on this section of our line was made effective during June 1908.

New passenger stations or increased facilities have been provided during the completed, and are being provided and will be completed during the completed, and are being provided and will be completed during the completed and are being provided and will be completed during the completed and are being provided and will be completed and repight facilities have been provided at 30 points and work is in progress on such facilities have been provided at 30 points and work is in progress on such facilities have been provided at 30 points and work is in progress on such facilities have been increased freight facilities have been provided at 30 points and work is in progress on such facilities have been provided at 30 points and work is in progress on such facilities have been in the facilities have been provided and will be compl

London.

A new four-track bridge is being built over Jackson St., Holyoke. The double-track steel bridge at Massachusetts Ave., Boston, has been renewed, and the pler masonry extended for four tracks. The new draw bridges on the Hariem River Branch at Pelham Bay and over the Bronx River have been practically completed. Extensive bridge renewals have been made at other points.

The electrification of the line between East Hartford and Vernon and Meirose has been completed and electric operation inaugurated.

*Includes gas light and water.
[The Rhode Island Co. derived \$22,519 from "other sources," bringing its total available income up to \$1 443,348; deducting taxes, rentals, &c., \$31,464,927." leaves the surplus income for the year \$178,421, which item, it is understood, is included in one of the ite s of "other income" in the statement of the N. Y. N. H. & H. RR. Co. below. The net earnings of the "Connecticut Company." \$2,745,758, appear as a separate item in the general income account below, while the interest and other charges of the Connecticut trolley, &c., companies, including the \$1,039,167 paid as rental to the Connecticut Ry. & Lighting Co., are included in the fixed charges of the parent company. In response to 1907 showed gross earnings of "street railway lines," also gas light, power and water cos., as \$10,-535,058; net earnings, \$3,615,900.—Ed.]

Bonded debt, incl. merged r'ds as'm'd
Bonded debt, incl. merged r'ds as'm

* See tabulated statement above. x Bonded debt of constituent companies in 1908 excludes bonds of New England RR., \$19, 909,000, merged April 1 1908 with parent company; also the bonds of certain steamship and trolley companies. Note—Contingent Labshittes.—The following contingent liabilities are not included in the balance sheet of June 30 1908:

10

Joint liability with other roads for any deficiency on foreclosure of onds of the Boston Terminal Co.;

(2) Guaranty to repay preferred stock of the Springfield Ry. Cos., \$3,-387,950, and of the New England Investment & Security Co., \$4,000,000, at 105 on liquidation.

(3) Guaranty of principal and interest of the debentures of the Providence Securities Co., \$19,889,000.

(4) Guaranty of principal and interest of the gold debentures of the New England Navigation Co. in ease of termination of lease of the Old Colony RR. Co., 35,500,000.

The last two items were included in 1907 in the item of "debentures of subsidiary companies" (\$24,173,000). See V. 85, p. 859.—V. 87, p. 678, 480.

Toledo & Ohio Central Railway.

(Report for Fiscal Year ending June 30 1908.)

President N. Monsarrat says in substance:

President N. Monsarrat says in substance:

The accounts and statistics have been kept this year in conformity with the directions of the Inter-State Commerce Commission. The new system waries from our previous system in so many particulars relating to revenue, expenses and the methods of computing freight and passenger statistics, that an accurate comparison between this and former years has not been attempted.

The year's income was seriously affected by the depression in business during the last eight months of the fiscal year, also by the suspension of coal mining in April 1908, and the late opening of the lake trade in coal.

of coal mining in April 1998, and the late opening of the lake trade in coal.

Operating expenses of the year were charged with depreciation on equipment, \$217,328; to which was added the value of equipment sold and destroyed, \$78,825; making a total equipment replacement fund of \$296,153. Out of this fund appropriations aggregating \$182,950 were made for the purchase of 8 locomotives and \$4 cars, the building of 5 cars, and the reconstruction and betterment of 274 freight cars, &c. 3,457 tons of new steel rails weighing 80 pounds per yard were laid, the companies of the second of the second in the main track, and 35 miles of track were ballasted.

Betterments to a total of \$68,220 were charged to income account, including \$30,920 for the excess cost of masonry over wood in the case of 18 culverts replacing tresties. Expenditures aggregating \$52,026 were incurred for capital account (of which \$27,916 for second track) and paid for from current funds.

Of the total profit and loss surplus June 39 1908 \$4, 297,638 represents reinvestments in road, equipment and securities, and \$281,574 in materials and supplies; \$181,535 of latter having been created by net working liabilities.—V. 86, p. 481.

Kanawha & Michigan Railway.

Ranawna & michigan Ranway.

(Report for Fiscal Year ending June 30 1908.)

The new system of accounts varies from the system previously followed in so many particulars relating to revenue, expenses and the methods of computing freight and passenger statistics that an accurate comparison of such items as between this and former years has not been attempted. The depression of tusiness during the last eight months of the first market and such and the freight market and shipments of coal to the Great Lakes did not begin until an unusually late date.

date.

Operating expenses of the year were charged with depreciation on equipment, \$146,709, to which was added the value of equipment sold and destroyed, \$53,225, making a total equipment replacement fund of \$199,934. Of this fund \$76,669 was expended for the purchase of one locomotive, the building of 5 caboose and 1 service cars, the betterment of 1,063 freight cars, &c., leaving a balance in the fund of \$123,2565.

Of new steel rails 4,117t n:, weighing 90 ibs. per yard, were laid during the year.

building of 5 capouse and 1 services are cars, dec., leaving a balance in the fund of \$123,265.

Of new steel rails 4,117t n., weighing 90 lbs. per yard, were laid during the year.

The channel span of the Ohio River bridge at Point Pleasant was replaced with a heavy steel truss span; and contracts were awarded for the remaining spans and the vladuct approaches, upon completion of which the entire line will oarry consolidation englies and 50-ton cars.

In the channel span of the Ohio River bridge at Point Pleasant was replaced the contract of the contr

Additions to road and enigipment previously written off against profit and loss
or income now restored: June 30 1906, income, \$4.26, and profit and loss, \$334.701;
June 30 1907, profit and loss, \$384.869; also sundry profit and loss items amounting
to \$19.477; total, \$44.473; less discount on second mortgage bonds sold, \$207,800,
balance, \$536.673.—V. 86, p. 1224.

Westinghouse Air Brake Co., Pittsburgh, Pa.

(Report for Fiscal Year ending July 31 1908.)

(Report for Fiscal Year ending July 31 1908.)

Advance sheets of the annual report obtained by the "Pittsburgh Gazette' afford the following:
During the last nine months of the fiscal year which ended July 31 1908. In common with other corporations engaged in the manufacture and sale of railway appliances, this company experienced the most severe business depression in its history. Fortunately orders carried over from the previous fiscal year, together with those booked between August 1 and Nov. 1 1907 were sufficient to bring the aggregate sales up to a total of \$5,308,015 as compared with \$11,230,409 for the year ending July 31 1907. Net earnings from all sources were reduced in about the same proportions, resulting in a total credit of \$2,014,756 against which the board of directors subsequently authorized depreciation charges of \$43,960. For the two previous fiscal years these charges aggregated nearly \$500,000, so that, as heretofore, the annual average is high.

The annual average is high.

The adding decline is the end of the low of amount and the decline is the control of a series of almost all kinds of material in stock. This amount has therefore been changed against the fundance of the low prices now prevailing by heavy purchases made in anticipation of an early renewal of activity, which accounts for the increase in factory stores from \$2,533,474 last year to \$3,148,618 this year.

Out of net earnings of \$1,970,796 for the year, \$1,787,110 was paid in cash dividends as follows: October 5% and January 5% on \$11,-990,000 capital; April 2½% and July 2½% on increased capital of \$14,-990,000 capital; April 2½% and July 2½% on increased capital of \$14,-990,000 capital; April 2½% and July 2½% on increased capital of \$14,-990,000 capital; April 2½% and July 2½% on increased capital of \$14,-990,000 capital; April 2½% and July 2½% on increased capital of \$14,-990,000 capital; April 2½% and July 2½% on increased capital of \$14,-990,000 capital; April 2½% and July 2½% on increased capital of \$14,-990,000 capital

for October dividend. Although actual shipments during the current fiscal year have as yet shown very little improvement, orders received are gradually increasing and, in view of the much more promising outlook, the board of directors have declared the usual 24% dividend, payable Oct. 10 to stockholders of record Oct. 1.

The financial statement also shows the increase of capital stock from \$11,000.000 to \$14,000.000 and the payment of stock dividend of 25% out of the accumulated surplus, authorized by the stockholders Dec. 3 1907.

\$11,000,000 to \$13,000,000 to \$13,000,000 to the accumulated surplus, authorized by the stockhold surplus. The increase of \$215,000 in charges to Wilmerding plant represents the cost of a new blacksmith shop, new pattern shop with fire-proof pattern storage; also additional overhauling and renewal of machine tools and shop appliances, which the partial cessation of work made possible, puts the company's property in first-class physical condition, and fully prepared to meet any demand that may be made upon it.

New York Dock Company.

(Report for Fiscal Year ending July 31 1908.)

President David H. King Jr. says:

The improvements made during the past year comprised three-story extensions to stores Nos. 57, 58 and 59, two new driveways from the bulk-heads to Furman St., a new boiler plant for Dows Stores, the extension and rebuilding of pier No. 6, and several minor improvements at different points on the property, all of which have been charged to the renewal account of \$100,000 which was set aside out of the earnings of 1907 for this work. During the coming year it is proposed to extend piers Nos. 19, 22, 26, 27, 29 and 30 out to the new pierhead line.

The sum of \$50,024 has been charged off for depreciation. The Board of directors on Sept. 15 1908 declared a dividend of 2% on the preferred stock, payable Oct. 15 1908 to stockholders of record Oct. 1 1908.

GENERAL INVESTMENT NEWS, RAILROADS INCLUDING ELECTRIC ROADS.

Atlantic City & Suburban Traction Co., New Jersey.—
Sale Oct. 31.—A press report says that this bankrupt property will be sold at auction on Oct. 31.—V. 84, p. 1113.

Boston Elevated Ry.—New Treasurer.—Henry L. Wilson, Comptroller, has been elected Treasurer to succeed William Hooper, who resigned after 11 years of service, to retire from business life.—V. 86, p. 1342.

Canadian Northern Ry.—New Equipment Bonds.—On Sept. 15 a mortgage was filed dated Sept. 11 1908, and made between the Imperial Rolling Stock Co., Ltd., National Trust Co., Ltd., and the Canadian Northern Ry. Co., to secure a new issue of equipment bonds, presumably Series S.

The issue of \$1,700 000 41/5% guaranteed equipment bonds, series R, was described last week. Series P, consisting of \$2,000,000 gold guaranteed 41/8, due \$100,000 hair-yearly, Feb. 1 and Aug. 1, 1908 to 1917 incintive was issued in 1907, against rolling stock costing \$2,669,000.— V. 87, p. 512.

teed 45s, due \$100,000 half-yearly, Feb. 1 and Aug. 1, 1908 to 1917 inlinitive was issued in 1907, against rolling stock costing \$2,669,000.—
V. 87, p. 812.

Chicago & Alton RR.—Equipment Ordered.—This company, which in August last placed an order with the Standard
Steel Car Co. for 1,000 steel gondola 50-ton coal cars, has
ordered an additional 1,000 steel freight cars from the same
concern. Car trust bonds, it is understood, will be issued
later on.—V. 87, p. 543.

Central New England Ry.—Earnings.—See report of
New York New Haven & Hartford RR. under "Annual
Reports" on a preceding page.—V. 87, p. 225.

Cincinnati Bluffton & Chicago RR.—Default—Notice to
Bondholders.—The company having defaulted on the coupons due Sept. 1 1908, the Mansfield Banking Co. of Mansfield, Ill., gives notice by advertisement on another page
that they are holders of a block of the bonds, and are taking
the initiative in forming a bondholders' committee, it being
apparent that the bondholders should take immediate and
concerted action to protect their interests.—V. 86, p. 720.

Cleveland Ry.—Rental Payment Reported Withheld.—
Newspaper dispatches state that the company on Sept. 30
refused the tender of the quarterly rental payment (about
\$220,000) by the Municipal Traction Co. because the latter
imposed the condition that the money be applied to the payment on Oct. 1 of the second 1½% quarterly dividend on
the \$14,675,600 stock since the lease went into effect.

Secretary Davies, it is said, took the position that the declaring or passling of a dividend was a matter entirely within the jurisdiction of the directors.

the \$14,675,600 stock since the lease went into effect.

Secretary Davies, it is said, took the position that the declaring or passing of a dividend was a matter entirely within the jurisdiction of the directors of his company and of no concern to the operating company. The Municipal Company, it is stated, insisted upon the condition on the theory that the passing of a dividend would discredit it in the eyes of the investing public.—V. 87, p. 677, 226.

Connecticut Co.—Earnings.—See report of New York New Haven & Hartford RR. under "Annual Reports" on a preceding page and also in V. 85, p. 858.

Dominion Power & Transmission Co., Hamilton, Ont.—New Officers.—Col. J. M. Gibson having resigned as President and director, the following officers are announced:
Lieut.-Col. J. R. Moodle, President; James Dixon and George B. Blanch-

dent and director, the following officers are announced:
Leut.-Col. J. R. Moodle, President: James Dixon and George B. Blanchard, Vice-Presidents: William C. Hawkins, Secretary and General Manager, and John Knox, Treasurer.—V. 84, p. 569, 751.

Erie RR.—Purchase of October Coupons Continued.—
Referring to the previous notices of the company on the subject, J. P. Morgan & Co. announce by advertisement that they will, until further notice, continue to purchase at par coupons due Oct. 1st 1908.—Compare V. 87, p. 740.

Fitchburg RR.—New Securities.—At the annual meeting on Sept. 30 the shareholders authorized the issue of \$500,000 bonds in order to provide for the refunding of 1-vear honds

bonds in order to provide for the refunding of 1-year bonds maturing Jan. 15 1909, also an increase of the capital stock by the issue of \$700,000 preferred stock, for the stated in V. 87, p. 812. purposes

Grand Trunk Pacific Ry .- See Grand Trunk Ry. below V. 87, p. 677

Grand Trunk Ry.—Partial Opening of 666 Miles West of Winnipeg.—On Sept. 21 1908 the Grand Trunk Pacific opened up passenger service over 666 miles of track from Winnipeg, Man., to Wainwright; the line for the present, however, will continue to remain in the hands of the construction department, but next summer will probably be placed in regular operation.

The Montreal "Gazette" of Sept. 16 quotes General Passenger Agent G. T. Bell, who had been over the line, as saving:

Passenger Agent G. T. Bell, who had been over the line, as saying:

The territory served is rich in farming possibilities, and most picturesque in places, as, for example, the valleys of the Qu'Appelle and Assin boine rivers, near the weatern boundary of Manitoba, about 200 miles from Winnipeg, and through the Touchwood Hills in Saskatchewan, about 350 miles from Winnipeg. Settlers have been taking up farm land for several years past, and investors have been rapidly purchasing land at the settler of the settler shave been taking up farm land for several years past, and investors have been rapidly purchasing land at the settler of the settler shave the amount of actual and permanent growth that a satisfating to beeve the amount of actual and permanent growth that a satisfating to beeve the amount of actual and permanent growth that have been taking up farm and the leds of grain as seen from the train were impressive when considered in connection with the enormous acceage yet to be cultivated. Elevators for grain are completed in a number of cases and many others are under construction, and will be ready for this year's crop. The Grand Trunk Pecific is building a first-class rallway and when it opens for regular traffic next summer, it will do so as a line equipped with a first-class road-bed, easy grades, few curves, heavy steel rails and splendid equipment. The present service to commence with while beth grand to when the present service to commence with while beth grand to when the present service to commence with while beth grand the company will be water on regular agents for the time being are located, the company will be weather the present service to passengers and the railway when the train is in motion, collect fares, give receipts, arrange for checking of baggar, receive orders for freight cars a express goods. Another interesting feature is the naming of stations, which, with few exceptions, in each district commence with names in alphabetical order. The new service is so arranged that the trip may be

Houston & Texas Central RR .- Called Bonds --First mortby lot and will be redeemed at 110 and interest on presentation at the company's office in the Equitable Building, this city, interest ceasing Nov. 28 1908. See advertisement on another page of to-day's "Chronicle."—V. 87, p. 226.

International Traction Co., Buffalo.—New President.—Thomas Penney, of the law firm of Norton, Penney & Sears, succeeds as President Henry J. Pierce, who resigned on Sept. 29.

Mr. Pierce will devote himself to the engineering and contracting busin of the Amsterdam Corporation, formed last May by himself and W. Wilgus, former Vice-President of the New York Central & Hudson Fil RR. Mr. Pierce states that he will retain his financial interest and place on the board of the trolley company.—V. 86, p. 1095.

Interstate Railways, Philadelphia.—Guaranteed Bonds, &c.—See Reading Power Co. under "Industrials" below.

Reorganization Committee for Philadelphia Bristol & Trenton Street Ry.—See that company below.—V. 87, p.

Trenton Street Ry.—See that company below.—V. 87, p. 812, 677.

Louisville & Eastern (Electric) RR.—Negotiations.—We learn that negotiations are under way for the Louisville & Frankfort to purchase this property, subject to the \$650,000 first mortgage 5% bonds dated 1906 and due April 1 1956, and to complete the extension to Shelbyville. The Shelbyville extension is to cost about \$1,000,000, to be taken care of by about \$500,000 first mortgage bonds and about \$500,000 second mortgage bonds and preferred stock. All the above is subject to negotiation.—V. 87, p. 677.

Mexican Southern Ry., Ltd.—Listed in London.—The London Stock Exchange has listed a further issue of £100,000 4% first mortgage debenture stock. Compane V. 86, p. 721.

Municipal Traction Co., Cleveland.—Rental Reported Withheld.—See Cleveland Ry. above.—V. 87, p. 677.

National Railways of Mexico.—Interest Payment by Merger Company.—The interest (1%) maturing Oct. 1 1908 on the guaranteed general mortgage 4% 70-year sinking fund recemble gold bonds of the company was paid on and after said date, at the offices of the company, 60 Wall St., New York, on the presentation of the temporary bonds for notation thereon of the payment of such interest.

Holders of certificates of deposit of Central Trust Co. of New York, representing priority 5% bonds and consolidated mortgage 4% bonds of

Holders of certificates of deposit of Central Trust Co. of New York, representing priority 5% bonds and consolidated mortgage 4% bonds of Mexican Central Ry. Co., Ltd., are being paid the interest on the new bonds to which they are entitled, at the Central Trust Co. of New York, 54 Wall St., New York City, or at the office of its agent, Kidder Peabody & Co. 115 Devonshire St., Boston, on presentation of the certificates of deposit.—V. 87, p. 614, 346.

to which they are entitled, at the Central Trust Co. of New York. 24 Wall St. New York City, or at the office of its agent, Kidder Peabody & Co. 115 Devonshire St., Boston, on presentation of the certificates of deposit.— V. 87, p. 614, 346.

New York & Long Island RR.—Status.—The report of the Public Service Commission for the six months ending Dec. 31 1907, just issued, has, under the title of the "Steinway Tunnel", a chapter on the condition of the enterprise and the litigation affecting it.—V. 86, p. 1344.

New York & Portchester RR.—Status.—See Millbrook Co. in report of New York New Haven & Hartford RR. under "Annual Reports" on a preceding page.—V. 87, p. 480, 415.

Pennsylvania Company.—Called Bonds.—Gold 3½% certificates of 1901 to the amount of \$1,334,000 have been called for redemption and will be paid at par on Nov. 1 at the Girard Trust Co., Philadelphia.—V. 86, p. 1590.

Philadelphia Bristol & Trenton Street Ry.—Protective Committee.—Interest having been defaulted Sept. 1, the following committee calls for deposits of the first mortgage bonds with the Union Trust Co., Baltimore:

Edward D. Toland of Philadelphia, Chairman; George Blakistone, President of the Union Trust Co. of Baltimore, and one of the receivers of the road; Grier Hersh of York, Pa., formerly President of the Maryland Trust Co.; W. F. Sadier Jr. and Thomas Newhall.—V. 87, p. 813, 678.

Rhode Island Co.—Earnings.—See report of New York New Haven & Hartford RR. under "Annual Reports" on a preceding page.—V. 84, p. 1368.

St. Louis & San Francisco RR.—Reported Financing.—The newspapers this week report that negotiations are under way with Speyer & Co. to provide the St. Louis & San Francisco with the means for refunding the \$7,124,000 of short-term notes maturing on Dec. 1, and also other near-by maturing obligations. No official confirmation of the report was obtainable.

The "Wall Street Summ ary" of yesterday said:

Confirmation was obtainable.

The "Baltiman announces to heart she with the Rock Island proyecties, it may be found

Southern Indiana By.—70% Deposited.—The first mort-gage bondholders committee, of which Anton G. Hodenpyl is Chairman, announces that 70% of \$7,500,000 first mort-gage 4% bonds has been deposited under the terms of the agreement which expired Oct. 1.—V. 87, p. 679, 615.

Texas Central BR.—Report.—The results for the year ending lyne 30 were:

Western Maryland RR.—Coupons Paid—Receiver's Cericates.—The coupons due Oct. 1 on the \$42,518,000 First tificates.—The coupons due Oct. I on the \$42,518,000 First mortgage bonds were paid at maturity upon presentation at the office of The Mercantile Trust Co., No. 120 Broadway, New York. Last April the amount required to meet this semi-annual interest, \$850,000, was all raised on 6% receiver's certificates payable \$140,000 monthly. On account of the present disbursement the receiver will issue \$600,000 of his 5½% gold certificates payable in monthly installments of \$100,000, beginning, it is stated, Oct. 30 "or sooner." The "Baltimore Sun" of Sept. 30 said:

Owing to the large amount of money which it is necessary to borrow to pay the interest on the bonds, Mr. Bush was authorized to defer for six months the payment of \$58,995 due the Maryland Steel Co. for rails bought under an order of Court on June 13 last. Arrangements have been made for assigning the claim to the Maryland National Bank and for its payment in six months with 6% a year interest. The Court also ratified an arrangement made by Mr. Bush with the Citizens' National Bank for the payment of claims for accretain machinery and intures furnished an arrangement made by Mr. Bush with the Citizens' National Bank for the payment of claims for accretain machinery and intures furnished an arrangement of claims for accretain machinery and intures furnished an arrangement with interest at the rate of 6% a year, in installments of \$100,000 monthly, beginning Nov. 10, and \$20,000 each on May 10 and June 10 mext.—V. 87, p. 286, 40.

Wheeling & Lake Erie RR.—Payment of Interest on Equipment Bonds.—The Mercantile Trust Co., New York, is now paying the interest due July 1 on the equipment bonds issued in 1902, of which \$1,998,000 are outstanding.—V. 87, p. 741, 616.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Adams Express Co.—Stock Holdings.—The annual report of the Public Service Commission of New York State, First District, issued on Sept. 28, shows:

The American owns in the Westcott Express Co. \$143,600 out of a total of \$150,000 preferred stock and \$497,650 out of a total of \$500,000 of common stock; also in the National Express Co. \$484,600 out of \$500,000 stock issued.—V. 85, p. 1210.

American Agricultural Chemical Co.—Bonds Offered.—
Lee, Higginson & Co., Boston, New York and Chicago, and Clark, Dodge & Co. and Moffat & White, both of New York, offered for sale early in the week, at 94 and interest, yielding about 5½%, \$8,000,000 first mortgage 5% convertible gold bonds, dated Oct. 1 1908 and due Oct. 1 1928, but callable at 103 and interest as a whole or for the annual sinking fund (at present \$250,000, being 3½% of the total bonds issued). Authorized issue \$12,000,000. Coupon bonds, \$1,000 each (c*), and registered bonds, \$1,000 and multiples, are interchangeable. The bonds it is announced, have all been sold.

Abstract of Letter from President Peter B. Bradley, Sept. 23 1908.

Description of Bonds.—These bonds are dated Oct. 1 1908 and will ma-

Abstract of Letter from President Peter B. Bradley. Sept. 23 1908.

Description of Bonds.—These bonds are dated Oct. 1 1908 and will mature Oct. 1 1928. The total authorized issue is \$12,000,000. The mortgage provides that no part of the \$4,000,000 reserved bonds can be issued unless the net earnings for the fiscal year next preceding have been at least double the annual interest charges on the entire amount of bonds, including the same of the present standard weight and increase, without deduction of any taxes or assessments which the company or the trustee may be required to pay thereon or to deduct therefrom under any present or future law.

The bonds are secured by a first mortgage to the Columbia Trust Co., New York, as trustee, upon: (a) All real estate and plants now owned or hereafter acquired by the company; (b) substantially all the capital stock of two subsidiary companies. A conservative valuation based upon careful appraisals of the real estate and plants owned by the company and a low valuation of the properties owned by said subsidiary companies, and entirely exclusive of the value of franchises and good will, is \$13,015,833. The above properties are free from liens other than that of this mortgage, panles aggregating \$368,000, one of which, amounting to \$150,000, falls due Dec. 21 1908. Provision has been made for the payment of these mortgages at maturity. The deed of trust provides that in case any subsidiary companies howes stock is subject thereto shall place a lien on its property, or incur any indebtedness except such as is ordinarily incident to the proper conduct of its business, then, at the option of the trustee or a majority of the bondholders, the bonds shall become forthwith due.

An annual cash sinking fund of 3½ % of the total bonds issued is payable to the trustee, beginning Jan. 1 1910, for the purchase and cancellation of these bonds at not exceeding 103% and accrued interest, to which price they can be drawn. The bonds are also callable at the option of the company, as a whole

1908. 6½% 6% 6% 6% 5½% 6½% 6½% *45% 13%

*This includes a stock dividend of 25 %—V. 84, p. 1184.

City Investing Co., New York.—New Stock.—The shareholders voted Oct. 1 to increase the capital stock from \$4,000,000 to \$5,000,000; also to classify the capital stock into \$4,000,000 common and \$1,000,000 7% non-cumulative preferred. The pref. stock will shortly be offered, probably at par (\$100 a share) to shareholders of record pro rata.

—V. 87, p. 741.

Columbus (Ga.) Water Water.

Columbus (Ga.) Water Works Co.—Status of Litigation.—See Columbus, Ga., in "State and City Department"; also in V. 80, p. 2623.—V. 80, p. 2623.

n V. 80, p. 2623.—V. 80, p. 2623.

Dominion Copper Co., Ltd.—Receivership.—The property has been placed in the hands of P. F. Roosa on application made by the National Trust Co. of Toronto, as mortgage trustee, on the ground that the installment of \$80,000 due to the sinking fund on June 1 has not been paid. The mines have been shut down since the middle of August, owing, it is said, to the high price of coke.—V. 82, p. 1381.

Eastern Steamship Co.—Hearing Adjourned.—The hearing before Judge Putnam in the United States District Court at Portland, Me., on Sept. 30, on a petition for a final decree in settlement of the affairs of the company, was adjourned until Oct. 9 in order to give the syndicate represented by receiver William T. Cobb opportunity to complete their arrangements for bidding in the property subject to the outstanding bonds. The syndicate in question, it is understood, contemplates making a bid sufficient to cover the floating debt. The Morse interests, it is thought, will also tender a bid.—V. 87, p. 289.

General Railway Signal Co., Rochester, N. Y.—Dividend

General Railway Signal Co., Rochester, N. Y.—Dividend Not Paid.—No dividend was paid Oct. 1 on the \$2,000,000 6% cumulative preferred stock. The 16th consecutive quarterly dividend of 1½% was paid on the preferred stock July 1 1908.—V. 86, p. 54.

stock July 1 1908.—V. 86, p. 54.

Hudson Power Transmission Co.—Payment of Coupons Delayed.—The funds to pay the coupons due Oct. 1 on the \$500,000 first mortgage and \$600,000 refunding mortgage bonds are not yet available, but we understand it is hoped to complete arrangements so that the coupons may be met next week, in which case they will be cashed at the Knickerbocker Trust Co., New York. The transmission company is controlled and operated by the Hudson River Electric Power Co. The last-named company in July last asked its bondholders to fund five years' coupons. Compare V. 87, p. 228, 290, 350, 616; V. 86, p. 1097—V. 82, p. 932.

Hilinois Brick Co. Chicago.—Dividend of 1% Declared.—

Illinois Brick Co., Chicago.—Dividend of 1% Declared.—On Sept. 29 a dividend of 1% was declared on the \$4,000,000 capital stock, payable Oct. 15 to stock of record Oct. 3. This is the first distribution since Jan. 1 1908,

Compare V. 86. p. 419, 797.

International Paper Co. — Preferred Dividend Reduced from 4% to 2% Basis.—The directors on Wednesday declared a quarterly dividend of ½ of 1% on the \$22,406,700 (6% cumulative) preferred stock, payable Oct. 15 on stock of record Oct. 5. From organization in July 1898 to Jan. 15 1908 inclusive, the preferred shares received their full 6% per annum, but last April and July only 1% quarterly. In 1898 1% and in 1899 2% was paid on the common stock. By reason of the fact that the mills of the company have been shut down for two months on account of the strike of its employees and the earnings thereby being cut off, it was deemed best by the directors to declare a dividend at this time of ½ of 1%.

3,998,700

The "Journal of Commerce and Commercial Bulletin" of October 1 had the following:

of October 1 had the following:

Touching the strike, one in close touch with the affairs of the corporation late last evening said:

The demands made by the "International Brotherhood of Papermakers, Pulp, Sulphite and Paper Mill Workers" at their meeting held Sept. 26 1908, can not be considered for a moment, and considered for a moment, and so the agreement made by the President of that organization dated Sept. 24 has been. This corporation, however, proposes to resume manufacturing at its mills at once, and to this end we give notice that the positions vacated by those leaving the company will be filled as soon as possible. The company is not opposed to organized labor, but is prepared to recognize any organization which can convince the company's officials that any agreements entered into between the organization and the manufacturer will be carried out in good faith.

While the company has also feit the effect of the contraction in general business, it is stated on authority that current orders show a noticeable increase.

While the company has also but business, it is stated on authority that current orders show a nodecable increase.

Reports that the company's property had been damaged by forest fires in the northern part of the State are officially denied. The only damage, it is stated, occurred in land: that had been cut over and the money iss t, these preperties has been insignificant.—V. 86, p. 1592.

(C.) Jutte & Co., Pittsburgh.—Property Sold.—The property was sold under foreclosure on Sept. 16 for \$750,000 to James W. Friend. Compare V. 87, p. 483.

New England Navigation Co.—Earnings.—See report of New York New Haven & Hartford RR. under "Annual Reports" on a preceding page.—V. 84, p. 1056.

Vulcan Detinning Co., New York.—Dividends Resumed.— The directors on Oct. 1 declared a dividend of 1¼% on the \$1,500,000 (7% cumulative) preferred stock for the quarter ending Sept. 30 1908, payable Oct. 20 to shareholders of record Oct. 9. The last dividend was one for the same amount paid Oct. 21 1907.

Winona (Minn.) Gas Light & Coke Co.—New Stock.—A certificate has been filed increasing the capital stock from \$300,000 to \$350,000. W. B. Parsons, President. See V. 82, p. 1504.

Westinghouse Electric & Manufacturing Co. - Adoption of Modified Plan.—The readjustment committee, of which J. N. Jarvie is Chairman, announces by advertisement on

J. N. Jarvie is Chairman, announces by advertisement on another page that it has adopted substantially the so-called merchandise creditors' plan outlined in V. 86, p. 922; V. 87, p. 101. This action has been taken notwithstanding the fact that the cash subscriptions to the new assenting stock of \$6,000,000 contemplated in such plan do not at this time exceed \$4,500,000, and although the assent of a considerable amount of the bank debt and a portion of the merchandise debt still remains to be secured.

The plan adopted makes no substantial change in the plan submitted by the merchandise creditors' committee as to any of the essential features namely (1) The list of securities undisturbed; (2) the terms of exchange offered to the holders of the merchandise creditors' debt, amounting Aug. 31 1908 to \$4,762,560; or (3) to the holders of bank debts (in other words, notes payable for money borrowed aggregating \$7,919,000), except that certain banks have agreed to take and all are offered assenting stock for the 50% of their claims not payable by convertible bonds; (4) the requirement that \$6,000,000 assenting stock be subscribed for by the shareholders or others; and (5) the new securities to be issued.

The merchandise debt (\$4,762,560) is to be satisfied with new assenting stock at par. The holders of the bank debts (\$7,919,000) are offered options as follows:

OPTIONS OPEN TO BANK CREDITORS.

To Receive in Exchange— Opt. 1. Convertible bonds 50% 5% note . due 1-3 in 4 years. 1-3 in 5 years and 1-3 in	Opt. 2. 50%	Opt. 3. 50%
6 years *30 % Common stock *20 %		50 %
5% 15-year notes	50 %	
Total100%	100%	100%

x Or, optionally, a greater amount in stock and a less amount in notes.

The capitalization of the reorganized company would upon acceptance of the plan by all the shareholders and merchandise and bank creditors stand as follows:

1.969.000

Five per cent gold debenture certificates of 1898, due July 1 1913 (subject to call at 105, sinking fund) (V. 67, p. 324, 691, 1112)

rive per cent gold debenture certificates of 1898, due July 1 1913 (subject to call at 105, sinking fund) (V. 67, p. 324, 561, 1112)

Three-year 6% collateral notes, due Aug. 1 1910, but subject to call on any interest day at par and interest at 2% per annum for the unexpired portion of the term of the notes. (V. 85, p. 44, 104, 155, 289, 1458; V. 86, p. 233.) The collateral deposited was as follows: \$6,000,000 Lackawanna & Wyoming Valley Rapid Transit Co. first lien consolidated mortgage 58; 19,000 shares (\$30 each) Westinghouse Electric & Manufacturing Co. Ltd., 4% mortgage house Electric & Manufacturing Co., Ltd., 4% mortgage debenture stock, \$500,000 Grand Rapids Grand Haven & Muskegon Ry. first mortgage bonds, with the provision that in addition to the \$6,000,000 Lackawanna & Wyoming Valley value of at test \$3,000,000 Candam and Aways be of a market value of at test \$3,000,000 Candam unit always be of a market value of at test \$3,000,000 Candam unit always be of a market but subject to redemption at 105 on any interest day on or after Oct. 1 1908 to Oct. 15 1912 inclusive, or 102 1/4 after that date. Secured by \$2,243,200 5% 25-year Russian Westinghouse Electric debentures, \$674,987,5% 30-year French Westinghouse debentures and \$380,000 Canadian Westinghouse Electric days of \$3,000 canadian Westinghouse debentures and \$380,000 Canadian Westinghouse debentures and \$380,000 Canadian Westinghouse debentures central and \$1,900,000 canadian destinghouse debentures central and \$1,900,000 canadian destinghouse debentur

A circular announces the right of depositors to withdraw from the plan during the three weeks after the final publica-tion of the notices as to adoption of plan upon a payment of 1% and gives full particulars as to the method of deposit under the plan. The circular further says in substance:

of 1% and gives full particulars as to the method of deposit under the plan. The circular further says in substance:

The company will have a board of twelve directors with power to add additional members to be distributed equally among the four classes hereinafter mentioned. The board to be classified into four classes hereinafter mentioned are not because the consist of persons approved by the readjustment committee with representation acceptable to the merchandise creditors' committee. The readjustment committee after conference with the merchandise creditors' committee and the principal stockholding interests to appoint a proxy committee to remain in existence. The foregoing arrangement may be modified in the committee's discretion. This plan is to be carried out by the readjustment committee, acting under the readjustment agreement bearing date Jan. 20 1908, and in case of conflict between this modified or substitute plan and the terms of said agreement, the latter shall govern. The plan is to be consummated by This plan is not to become operative unless and until subscriptions to \$6,000.000 of "assenting stock" and the necessary assents of the holders of the bank debt and merchandise creditors' claims are in hand, and the committee have fixed Oct. 27 1908 as the date by which such subscriptions and assents must be received. The committee, however, may, in its discretion, impose such additional conditions or grant such additional extensions as may be necessary or proper, and may determine when assents justify declaring the plan operative

Holders of convertible bonds, dependence creditors claims, are invited to participate in this plan, and to that end to deposit their obligations or claims, are invited to participate in this plan, and to that end to deposit their obligations or claims on or before Creat. The strange factors and floating debt who have not filed their obligations or claims, are invited to participate in this plan, and to that end to deposit their obligations or claims on or before Creat. Th

President George Westinghouse, under date of Oct. 1, has addressed a letter to the stockholders urging co-operation in the obtaining of the further subscriptions for the \$6,000,000 new stock which are necessary to make the plan operative. Accompanying the letter is a statement prepared by the Auditor of the company which shows how greatly the company would be strengthened by the immediate completion of the plan.—V. 87, p. 815, 617.

—A new set of "Tables of Bond Values," prepared by Joseph Deghuee, has made its appearance and is now offered for sale by Geo. W. Dougherty, 128 Broadway, New York City. This new edition of "Bond Values" is issued in greatly enlarged form and contains a number of important improvements. In the old book the basis was given at intervals of one-tenth of 1% and the prices contained only two decimals while the work just published carries the prices to four decimals and gives the basis at tenths, eighths and twentiseths. The scope of the tables has also been enlarged so as to enable the dealer to determine at a glance the income basis on short-term or long-term securities bearing interest ranging from 2% to 7%. An entirely new feature is a set of tables by which the basis is calculated on 2%, 3% and 4% bonds bearing quarterly interest. The price of the new book is \$10. We understand that many of the changes made were suggested by Mr. Francis Ralston Welsh, dealer in investment bonds, 328 Chestnut Street, Philadelphia, and Mr. Welsh has favored us with a copy of the new book with his firm name printed on the front cover. As the work is his firm name printed on the front cover. As the work is such an expensive one, Mr. Welsh, of course, has no copies for general distribution.

—The 1908 edition of the "Manual of Northeastern Pennsylvania Securities" has been issued by Brooks & Co. The book is more comprehensive than the previous issues and contains 140 pages. It will be mailed free by the bankers on request. The firm are members of the New York Stock Exchange with a branch office at 27 Pine St. The home office is at Scranton, Pa. Special attention is given to the securities of corporations in northeastern Pennsylvania. Pennsylvania.

—The Thomas J. Bolger Company, Bankers, 153 La Salle St., Chicago, announces that Wiley R. Reynolds, formerly Vice-President of the Peoples National Bank, Jackson, Michigan, has acquired an interest in their company, and from now on expects to give his individual attention to increasing their municipal and corporation bond business.

—The attention of investors is invited to the list of municipal and railroad bonds advertised on another page by N. W. Halsey & Co.

Reports and Documents.

THE ATCHISON TOPEKA & SANTA FE RAILWAY COMPANY.

THIRTEENTH ANNUAL REPORT-FOR THE YEAR ENDING JUNE 30 1908.

Office of The Atchison Topeka & Santa Fe Railway System. No. 5 Nassau Street, New York City.

September 2 1908.

To the Stockholders.

Your Directors submit the following report for the fiscal year July 1 1907 to June 30 1908 inclusive.

The Lines comprising the Atchison System, the operations of which are embraced in the following statements, are:

AND THE SECOND CO. S. C.	June 30	1908.	June 30	
Atchison Topeka & Santa Fe Railway 7	.081.45	miles.	7,025.27	miles.
Rio Grande & El Paso Railroad	20.17	**	20.17	**
Gulf Colorado & Santa Fe Rallway	.518.18	44	1.490.81	**
Eastern Rallway of New Mexico System	428.33	45	427.54	9.5
Santa Fe Prescott & Phoenix Railway	257.40	44	257.32	14
Southern Kansas Railway of Texas	125.07		129.17	**
Total	430.60	41	9 350.28	01

The average mileage operated during the fiscal year ending June 30 1908 was 9,415.01 miles. The total increase of mileage of the above lines was 80.32 miles. The increase in the average number of miles operated compared with the average of the preceding fiscal year was 141.86 miles.

In addition to lines covered by this report the Company had completed on June 30 1908 that portion of the Eastern Railway of New Mexico, consisting of 278.46 miles, including branches, and the Arkansas Valley extension, consisting of 106.56 miles, all of which will be included in the operated mileage after June 30 1908. There were constructed 110.74 miles of additional line which, however, were not ready for operation on July 1 1908.

The Company also controls through ownership of stock and bonds other lines aggregating 140.82 miles and is interested jointly with other Companies in 541.21 miles.

For a detailed statement of present mileage and of changes in mileage since last annual report, see pages 42 to 47 of pamphlet report.

pamphlet report.

INCOME STATEMENT.

Total operating revenues Income from other sources		94,343,307 50	1908. \$90,617,796 38 671,974 23

sales Grade Revision Work—Aban-	975,210 33		

Note.—The figures for the fiscal year ending June 30 1907 used for comparative purposes are not the same as shown in the last Annual Repose that are revised in accordance with Glassification of Operating Revenue and Operating Expenses as prescribed by the Inter-State Commerc Commission effective July 1 1907.

Income from other sources than earnings from operation consisted of interest on cash in banks and sums collected as interest and dividends upon bonds and stocks of companies the operations of which are not included in the System

During the fiscal year the sum of \$145,616 in cash was received as the net proceeds of sales of land embraced in the Santa Fe Pacific Land Grant, but this was directly written off the book value of Railroads, Franchises and Other Property, and the transaction does not appear in the Income Account.

CAPITAL STOCK AND FUNDED DEBT.

There have been no changes in the Capital Stock during the fiscal year.

The outstanding funded debt of the System (deducting bonds in treasury) amounted on June 30 1907 to------\$284,171,550

the following are changes in the Fund	ed Debt:	
Obligations Issued—		
General Mortgage	\$4,000,000	
Convertible 5% Bonds	26.056.000	
Eastern Oklahoma Division	3,475,000	
Obligations Purchased or Retired-		\$33,531,000
Serial Debenture Bonds Series F	49 235 AAA	

Miscellaneous Divisional Bonds. 2,248,130 Increase of Funded Debt----\$31,282,870 Total System Funded Debt outstanding June 30 1908 3315,454,420

Interest charges for the year ending June 30 1909 (including interest on \$17,000,000 of this Company's Transcontinental Short Line First Mortgage Four Per Cent Fifty-Year Gold Bonds issued after June 30 1908) will be approximately \$12,000 and \$13,000 and \$13 mately \$13,626,300, or an average monthly charge of about \$1,135,525.

CAPITAL EXPENDITURES AND REDUCTION OF BOOK VALUES.

The expenditures during the fiscal year chargeable to Capital Account for the construction and acquisition of additional millerent references. tional railways, equipment and other properties, and for additions and betterments, amounted in the aggregate to \$22,414,736 56.

These expenditures may be summarized as follows:

Construction and acquisition of new mileage, including	the	acquisit	on

Chansior-Canfield Midway Oll Co._\$400,000 00 Less: Expenditures during year..... 339,000,00

The sum of \$400,000 out of Fuel Reserve Fund was applied to reimburse the treasury to that extent in respect of the cost of the stock of the Chanslor-Canfield Midway Oil Company, and this sum was written off the book value of those shares.

MAINTENANCE OF EQUIPMENT.

The following statement shows the sums charged to Operating Expenses for Maintenance of Equipment during each year since July 1 1896:

and the	Average Operated	Total	Expenditure
Year ending June 30	. Mileage.	Expenditure.	Per Mile.
1897	6.443.81	\$3,443,884 82	3534 45
1898	6.936.02	4.659.277 99	671 75
1899	7.032.62	4.810.795 64	684 07
1900	7.341.34	5.267.832 40	717 56
1901	7.807.31	6.257.456 57	801 49
1902	7.855.38	7.864.951 25	1.001 22
1903	7.965.13	8,510,543 09	1.068 48
1904	8.179.59	10.006.135 41	1,223 31
1905		10.914.864 47	1.314 19
1906		10,720,040 43	1,271 05
1907		11,779,846 64	1.270 32
1908		14.246 621 44	1 513 18

In the above table, work equipment repairs, renewals and depreciation charges are included, but insurance, charges for equipment borrowed, and credits for equipment loaned are not included.

For the year ending June 30 1908 maintenance charges, including renewals and depreciation, averaged as follows:

G	Come tree.
Per locomotive	\$3,713.91
Per locomotive mile	.1374
Per passenger car, including mail and express	
Per passenger car mile	.0111
Per freight car	105.54
Per freight car mile	.0100

The foregoing average maintenance charges include a proportion of unlocated expenditures for Maintenance of

Equipment charged to Superintendence, Shop Machinery and Tools, Stationery and Printing, Other Expenses and Maintaining Joint Equipment at Terminals. Expenditures for insurance charges for equipment borrowed and credits for insurance charges for equipment be equipment loaned are not included.

mens tobated are now moderated to the Rolling Stock Replacement of June 30 1907, as shown in the last Annual Report was \$155,087 71

The following sums were credited to the fund during the year: Estimated depreciation Renewal charges accrned....

Salvage Cash collected for equipment sold and equipment destroyed on foreign lines including insurance collections.

77,376 77 2,469,231 93

Making a total fund available for the acquisition of new equipment \$2,624,269 64

The following equipment was acquired during the year by the use of this replacement fund: 35 Locomotives 1,126 Freight-train 9 Passenger-trai 4 Miscellaneous

2,388 65 6,637 78 3,306 23 2,390,203 63

Leaving unexpended balance to the credit of the Rolling Stock Replacement Fund June 30 1908 \$234,066 01

The following charges were made to Additions and Bet-terments in respect of additional equipment purchased during

die year.		
46 Locomotives	\$1.003.971	15
5,440 Freight-train cars		
49 Passenger-train cars	541,650	
7 Miscellaneous ears		
1 Tug boat	87,551	74
	\$9.195.435	04

There was also charged to Construction \$70,541 56 on account of the cost of fifty-one Miscellaneous cars purchased

during the year and payments made for similar equipment received during the previous year.

A statement of the locomotives in service and of their tractive power will be found on page 38. of pamphlet

MAINTENANCE OF WAY AND STRUCTURES.

The following statement shows the sums charged to Operating Expenses for Maintenance of Way and Structures.

Average Operated	Total	Expenditure
Year ending June 30. Mileage.	Expenditure.	Per Mile.
18976.443.81	\$6,282,923 15	\$975 03
18986,936.02	8.281.397 88	1.193 97
1899	7.672,107 62	1,090 93
19007,341.34	6.354.372 10	865 56
1901	6,433,840 36	824 08
1902	6.141.466 39	781 82
19037.965.13	9.304.892 04	1.168 20
19048,179.59	9.170.234 07	1.121 11
19058,305.40	11,385,418 33	1,370.85
19068,433.99	12,475,407 97	1,479 18
19079,273,15	15.286.062 66	1.648 42
19089,415.01	14,120,828 02	1,499 82

In the above table, insurance, work equipment repairs, renewals and depreciation are not included.

COMPARISON OF OPERATING RESULTS.

The following is a statement of revenues and expenses of the System for the fiscal year ending June 30 1908, in comparison with the previous year:

		Year end'g	Increase(+) or
	June 30 1908.	June 30 1907.	Decrease()
Operating Revenues-	8	\$. 8
Freight		66,173,517 72	-4,324,879 21

Operating Revenues. +4.83The figures for the fiscal year ending June 30 1907 used for comparative purposes are not the same as shown in the last Annual Report but are revised in accordance with the Classifications of Operating Revenues and Operating Expenses as prescribed by the Inter-State Commerce Commission effective July 1 1907.

The following averages are deduced from tables set forth

The following averages are deduced from tables set forth on pages 36 and 39 in pamphlet report.

The average tons of freight per loaded car mile increased from 18.40 to 19.29, or 4.84 per cent.

The average tons of freight carried per freight-train mile increased from 365.10 to 366.54, or .39 per cent.

The average freight revenue per freight-train mile decreased from \$2.93 to \$2.84, or 3.07 per cent.

The average passenger revenue per passenger-train mile increased from \$1.13 to \$1.17, or 3.54 per cent.

The average passenger-train revenue per passenger-train mile increased from \$1.41 to \$1.43, or 1.42 per cent.

The tons of freight carried one mile (revenue and company) decreased 174,917,706, or 2.14 per cent, while freight-car mileage (loaded and empty) decreased 29,259,543, or 4.77 per cent, and freight-train mileage (freight and mixed) decreased 564,978, or 2.53 per cent.

The number of pessengers carried one mile increased 59,128,468, or 6.10 [per cent, while [passenger-car mileage]

increased 1,707,238, or 1.57 per cent, and the passenger-train mileage (passenger and mixed) decreased 160,895, or .86

The following is a consolidated statement of the business of the System for each fiscal year during the period since January 1 1896:

Fiscal Year ending Ju'e30	Average Miles Oper- ated.	Earnings, Including Income from Other Sources.	Expenses, Including Taxes, Rentals and Other Charges.	Fixed Interest Charges.	Adjustment Bond Interest.	Burplus.
1897 }	6,443.81	44,541,689 81	\$6,038,455 30	8 6,900,007 91	1,540,380 00	\$ 62,846 6
mos. J 1898 1899	6,936.02	39,396,126 41	30,524,179 15 29,353,618 11	4,992,148 30	2,053,840 00	1,825,958 9

TREASURY.

Neither this company nor any of its auxiliaries has any notes of bills outstanding.

The company held in its treasury at the close of the fiscal year \$9,407,865 15 cash and had available about \$3,765,000 year \$9,407,865 15 cash and had available about \$3,765,000 General Mortgage bonds, including bonds not yet certified by the Trustee. The company also had in its treasury and unplegded \$17,000,000 of the bonds of The Eastern Railway Company of New Mexico and a large amount of stocks and bonds of other companies, of which part are carried in the balance sheet as Investments and part are included under "Railroads, Franchises and Other Property."

In order to convert the \$17,000,000 of bonds of The Eastern Railway Company of New Mexico into a more marketable security, an arrangement was made pursuant to which these bonds were canceled and the mortgage securing the same was released and The Eastern Railway Company of New

these bonds were canceled and the mortgage securing the same was released and The Eastern Railway Company of New Mexico, by an indenture dated July 1 1908, mortgaged its railways and other properties, to secure an issue of Transcontinental Short Line First Mortgage Four Per Cent Fifty-Year Gold bonds of The Atchison Topeka & Santa Fe Railway Company. Of this issue of bonds \$17,000,000 are to be certified and delivered to this company in consideration of the \$17,000,000 of bonds of The Eastern Railway Company of New Mexico surrendered for cancellation, and the remaining \$13,000,000 are to be certified from time to time to reimburse the Atchison Company, at par, for advances to be made to

\$13,000,000 are to be certified from time to time to reimburse the Atchison Company, at par, for advances to be made to The Eastern Railway Company of New Mexico for the extension of its lines and for other capital expenditures. While the bonds to be issued under this indenture are the direct obligations of the Atchison Company, The Eastern Railway Company of New Mexico has obligated itself to pay the principal and interest of the bonds.

The bonds will be secured by a first mortgage on the railways of The Eastern Railway Company of New Mexico, comprising at present 488.79 miles of railway and all the bonds and nearly all the capital stock of The Pecos & Northern Texas Railway Company, and of The Pecos River Railroad Company, which owns 206.27 miles of railway. The authorized issue of these bonds is limited to \$30,000,000, and is further limited to \$25,000 per mile of main track railway (not inclucing second or additional tracks, passing tracks (not including second or additional tracks, passing tracks and side tracks) which shall be owned by the Eastern Railway Company of New Mexico subject to the mortgage, or by some other company of which all the mortgage bonds and two-thirds of the capital stock shall have been deposited with the trustee under the mortgage.

the trustee under the mortgage.

The \$17,000,000 of Transcontinental Short Line bonds to be presently issued were sold after the close of the fiscal year covered by this report and therefore the transaction does not appear in the accounts herewith submitted.

FUEL RESERVE FUND.

The dividends received from sundry fuel companies have been added to this fund, and certain payments

Amount to credit of Fund June 30 1907	
Deductions referred to below	\$661,020 22 505,593 32
In Fund June 30 1908	\$155,426 90

On June 30 1908. Stere remained in the treasury of the Cherokee & Pittsburg Coal & Mining Company an unexpended surplus amounting to \$173,529 94, so that the total amount available for replacement of fuel properties in which your company is interested is \$328,956 84. The deductions from the Fuel Reserve Fund consist of \$400,000 transferred to the general cash account and written off the value of the stock of the Chanslor-Canfield Midway Oil Company (see exhibit C) and \$105,593 32, which, with part of the surplus earnings of the Cherokee & Pittsburg Coal & Mining Company, was applied to the acquisition of additional coal lands in southeastern Kansas.

ARIZONA & CALIFORNIA RAILWAY.

ARIZONA & CALIFORNIA RAILWAY

The bridge over the Colorado River costing approximately \$580,000 was completed during the year, and an extension of this line west to a junction with your main line in California can be pushed when conditions warrant further construction.

HOLLY & SWINK RY. AND ARKANSAS VALLEY RR.
These lines in the beet sugar district of the Arkansas
Valley in the State of Coloraco, which were referred to in
the last Annual Report, were completed during the year and
opened for traffic July 1 1908.

TRANSCONTINENTAL SHORT LINE

TRANSCONTINENTAL SHORT LINE.

EASTERN RAILWAY OF NEW MEXICO.
As set forth in previous Annual Reports, The Eastern Railway Company of New Mexico was formed for the purpose of creating a low-grade short line for transcontinental traffic of the Atchison System. The Eastern Railway Company of New Mexico has now practically completed its line from Rio Puerco to Texico, New Mexico, a distance of 265.93 miles, a branch from Clovis to Cameo, in New Mexico, 8.97 miles, and a branch from Dalies to Sandia, 3.56 miles Heavy work has been earried on throughout the year in reducing grades and curvature of the existing line between

Heavy work has been carried on throughout the year in reducing grades and curvature of the existing line between Texico, New Mexico, and Mulvane, Kansas, as this line is to be used in connection with the new Transcontinental Short Line. The line between Rio Puerco and Texico was opened for traffic on July 1 1908, and it is expected that, before the close of the current year, the bulk of the transcontinental freight traffic of your system will be carried over the new Short Line.

Short Line.

It is contemplated, when conditions are more satisfactory, to construct an extension of the railway of The Pecos & Northern Texas Railway Company (which is part of the system of The Eastern Railway Company of New Mexico) to a point on the Gulf Colorado & Santa Fe Railway, for the purpose of establishing a low-grade short line, in conjunction with the railways of The Eastern Railway Company of New Mexico and of the Atchison Company, for traffic between points on or near the Gulf of Mexico and the Pacific Coast.

Coast.

JASPER & EASTERN RAILWAY.

That portion of this road, Cravens to Oakdale, Louisiana, a distance of 23.70 miles, referred to in the last Annual Report, was opened for traffic February 9 1908.

TEXAS & GULF RAILWAY.

During the year work was commenced and grading practically completed for an extension of this line from Zuber, Texas, to a connection with the Gulf Beaumont & Great Northern Railway at Center, Texas.

BUSINESS CONDITIONS.

During the first six months of the fiscal year the business offered was rather more than could be promptly or economically handled, but this was accompanied by exceedingly

heavy expenses, resulting in large decreases of net operating

neavy expenses, resulting in large decreases of net operating revenues.

Beginning with January, the monthly gross earnings began to fall off seriously and have continued to do so. The loss of \$4,324,879 21 in gross freight earnings may be accounted for, in the main, by a shortage of wheat and cotton crops, which caused a loss of about \$2,250,000, and by a reduction of traffic in miscellaneous merchandise and manufactured articles, which caused a loss of about \$2,000,000.

manufactured articles, which caused a loss of about \$2,000.000.

The recession of business found your Company engaged in extensive construction and improvement work, some of which was so far advanced that it could not be suspended without great loss. Such work, therefore, was vigorously pushed and substantially completed, although this resulted in a heavy increase of operating expenses. Other construction and improvement work, although highly desirable from the standpoint of economy of operation and good service to the public, was suspended and will not be taken up again until conditions improve.

In the last Annual Report your Directors expressed the hope that the public would recognize that its recent attitude toward railway companies in general has been unjust to their stockholders and bondholders, and also that unless the confidence of investors in the security and stability of railway investments is restored, it will be impossible to obtain the additional railway facilities which the country needs. There are indications that the thinking public has begun to appreciate that the policy of harassing the railroad companies has gone too far; and it is to be hoped that this will be reflected in the action of those charged with making and administering the laws. But your Directors are still of the opinion that it would not be prudent, at the present time, to expend more capital in new construction, however desirable for the development of the country and for the benefit to expend more capital in new construction, however desirable for the development of the country and for the benefit of the public; and therefore, for the first time in the history of the Company, there are no plans in hand for the construc-

tion of extensions.

During the year there have been no advances in rates affecting your property. There have been sundry reductions—some slight, some serious—by order of State and National Commissions, of which a portion are being contested before

TAXES.

Reference to the income statements will disclose the fact that in addition to high prices for labor and material your company was obliged to pay taxes amounting to \$3,244,595 81, being 12.36% of the income applicable to the payment of bond interest and stock dividends, and \$741,945 32 more than during the preceding year. This additional burden is in part due to changes in the laws of several States and in part to increase of the assessed value of your property. Your Directors have no disposition to contest or evade the payment of fair taxes; but if it shall transpire that your property has been taxed unfairly as compared with other property, efforts will be made to have the errors rectified in the Courts. Reference to the income statements will disclose the fact the Courts.

ACCOUNTING METHODS.

ACCOUNTING METHODS.

In the last report mention was made of certain changes in Classification of Accounts prescribed by the Inter-State Commerce Commission. These rules have been in effect during the year. The most important departure from former practice has been the establishment of an Equipment Depreciation Account. In the case of your Company the result has been an additional charge of \$1,029,097 47 to Operating Accounts. It is proper to observe that no uniform practice in this regard has been adopted by the various railroad companies, and that some of them have declined to adopt the theory of the Inter-State Commerce Commission as to depreciation of equipment.

The property of your Company has not been permitted to deteriorate, notwithstanding the necessity for rigid economy, and was never in better condition.

EDWARD P. RIPLEY,

President.

President.

COMPARISONS WITH PREVIOUS FISCA	L YEAR.

COMPARISONS WITH PREVIOUS FISCAL YEAR.

New Classifications of Accounts prescribed by the Interstate Commerce Commission became effective July 1 1907, the beginning of the fiscal year for which this report ismade. It is, therefore, not practicable to furnish in detail accurate; comparisons with the previous fiscal year. However, the results for the previous fiscal year have been revised to conform substantially to the new Classifications, and the comparisons herein, while approximate, will indicate in a general way the fluctuations of the two years.

MAINTENANCE OF WAY AND STRUCTURES.

The total Operating Expenses of the Company for the year ending June 30 1908 were \$41,641,313 63; of this amount \$8,056,546 36 was for expenditures pertaining to the Maintenance of Way and Structures. Included in these expenditures is a large part of the cost of 63,754 tons of steel rails, the greater portion of which was laid in replacement of rails of lighter weight in 536.82 miles of track; also the cost of 1,940,409 new ties.

The expenditures for Maintenance of Way and Structures

The expenditures for Maintenance of Way and Structures also include a large portion of the cost of ballasting 7.41 miles of track with crushed stone, 590.17 miles with gravel, and 78.01 miles with cinders and slag; the crection, in place of wooden structures, of 51 new steel bridges on masonry, and 6 on pile supports, agregating 3,868 feet in length, and containing 2,790 tons of bridge metal; and the replacement of other wooden structures with masonry arch and box culverts and cast-iron pipes, the openings being filled with earth. The wooden structures replaced by permanent work aggregate 8,886 feet in length.

The expenditures on account of Maintenance of Way and Structures for the year ending June 30 1908, compared with the preceding year, were as follows:

NEW PASSENGER TERMINAL IN CHICAGO

The Company has acquired and is now in possession of substantially all of the lands needed for its new Passenger Terminal in the City of Chicago, to which reference was made in the last Annual Report. Satisfactory progress is being made in the removal of buildings from the lands acquired, preparatory to the commencement of the actual work of constructing the new terminal and its two approaches.

TRACK ELEVATION IN CHICAGO AND VICINITY.

TRACK ELEVATION IN CHICAGO AND VICINITY.

The work of elevating the Company's South Branch tracks parallel to Sixteenth Street, from a point 550 feet east of West ern Avenue to the west line of South Canal Street, in the City of Chicago, a distance of 2.36 miles, referred to in the last Annual Report, has made progress during this fiscal year as follows: The elevation to full height of the main tracks has been extended from Wood Street to Robey Street, a distance of .28 miles; solid-floor steel subway bridges, on concrete abutments, have been completed at Center Avenue. Morgan, Sangamon, Peoria, Newberry, Halsted and Union Streets; in the Wood Street yard 18.2 miles of track have been elevated and the team yards at Jefferson Street and at Ashland Avenue have been elevated and paved. An elevated freight station (703 feet by 30 feet) has been constructed between Halsted and Union Streets.

With the exception of the subway superstructures and paving the work of elevating the main tracks on the Milwaukee line from Balmoral Avenue to the northern limits of the City of Chicago at Howard Avenue, a distance of 2.74 miles, was substantially completed during the previous fiscal year. The permanent subways have now been constructed and the elevation entirely completed. An ordinance adopted by the City of Evanston requires the continuation of this elevation through that city from Howard Avenue to the northern city limits beyond Livingston Street, a distance of 3.95 miles; some preliminary work on this section has been done by the Company during this fiscal year.

During this fiscal year the Company has undertaken the elevation of the main tracks, the construction and elevation of four additional main tracks, the construction and elevation of four additional main tracks, the construction and elevation of four additional main tracks, the construction of thirteen subways, and of concrete retaining walls on both sides of the right of way, and the erection of two new depots. The concrete retaining wall on the south side of the

SUNDRY CONSTRUCTION.

SUNDRY CONSTRUCTION.

Among the more important sundry betterments and additions to the property of the Company during the fiscal year are the following:

An aggregate of 103.43 miles of sidings, yard tracks, and spurs, has been added to serve industries and develop traffic.

A second main track has been constructed from Janesville to South Janesville, Wisconsin, a distance of 4.37 miles.

Modern brick, stone-trimmed, Passenger Stations at Norwood Park, Illinois, Antigo, Wisconsin, Pierre, South Dakota, and Norfolk, Nebraska, and a new freight house at Fremont, Nebraska, have been completed.

At South Janesville, Wisconsin, a new Freight Yard, containing 20.24 miles of track; with a capacity for 800 cars, a brick engine house containing 30 stalls, brick shop building 48 feet by 160 feet; coal house, oil house, car repairers' building, yard office, coal chute, and other terminal buildings, have been constructed.

At North Green Bay, Wisconsin, a new yard containing miles of track with a capacity for 650 cars has been 8 miles of constructed.

At Winona, Minnesota, a new freight yard containing 5.24 miles of track, with a capacity for 400 cars, a 300-ton storage, elevated, coaling chute on concrete foundations, with steam hoisting engine, masonry cinder pit and sand

with steam hoisting engine, masonry cinder pit and sand tower, have been constructed.

At Huron, South Dakota, a brick engine house, containing 40 stalls, brick machine shop 100 feet by 120 feet and oil house, have been constructed.

At East Pierre, South Dakota, a new Freight Yard containing 7 miles of track with a capacity for 250 cars, a brick engine house, brick machine shop, and other terminal buildings, have been constructed.

At Missouri Valley, Iowa, a brick engine house containing 20 stalls and a brick power house 52 feet by 72 feet have been constructed.

20 stalls and a brick power house 52 feet by 72 feet have been constructed.

The new freight terminal located upon the four blocks of land between Webster and Davenport Streets in the City of Omaha, Nebraska, has been completed.

The new Iron Ore Dock at Ashland, Wisconsin, for which the material was assembled during the preceding fiscal year, has been completed.

The construction by the United States Covernment of a

year, has been completed.

The construction by the United States Government of a dam in connection with the Illinois and Mississippi Canal has resulted in raising the level of the Rock River, and on this account it has been necessary to raise the grade of the main tracks of the Galena Division east of Sterling, Illinois, 5.4 feet for a distance of 1.32 miles.

A new double track, single leaf, bascule bridge, 170 feet in length, with a deck plate girder span approach 26 feet in length, is being constructed over the north branch of the Chicago River near the Wells Street Passenger Depot, Chicago, to replace the center-pier bridge at that location. The new bridge is designed to give a clear channel 100 feet in width.

in width.

A structural steel viaduct has been constructed on Dearborn Avenue, Chicago, from the north abutment of the new bascule bridge built by the City over the Chicago River, to Kinzie Street, replacing the viaduct formerly at this location. The new viaduct is 306 feet in length. with an approach 159 feet in length. The Company has also constructed 1,069 feet of new dock front on the north side of the Chicago River between the east line of Dearborn Avenue and a point 110 feet west of Rush Street, to meet the requirements of the Sanitary District of Chicago.

MISSISSIPPI RIVER BRIDGE.

A new double track bridge, on masonry piers and abut-

MISSISSIPPI RIVER BRIDGE.

A new double track bridge, on masonry piers and abutments, across the Mississippi River between East Clinton, Illinois, and Clinton Iowa, located forty feet south of and parallel to the center line of the present bridge, is under construction. The distance between the new abutments on the Illinois and Iowa shores is 4,212.85 feet. The Mississippi River at this location is divided by Little Rock Island into east and west channels. The superstructure across the east channel between the Illinois shore and Little Rock Island consists of one plate girder span 74 feet in length, one riveted Pratt truss span 202 feet 3½ inches in length, one riveted lattice span 115 feet 7¾ inches in length, and seven riveted lattice spans each 146 feet 5½ inches in length.

NEW RAILWAYS AND EXTENSIONS.

NEW RAILWAYS AND EXTENSIONS.

NEW RAILWAYS AND EXTENSIONS.

The following new lines of railway have been completed and opened for traffic during the year:

The Pierre Rapid City & North Western Railway, extending from a connection with the Pierre & Ft. Pierre Bridge Railway 2 miles north of Ft. Pierre, to Rapid City, South Dakota, a distance of 165.48 miles.

The Pierre & Ft. Pierre Bridge Railway, extending from a connection with the Chicago & North Western Railway at Pierre, South Dakota, to a connection with the Pierre Rapid City & North Western Railway .2 miles north of Ft. Pierre, a distance (including bridge over the Missouri River) of 1.82 miles.

The Wolf River Valley Railway, extending from the end of the Elton, Wisconsin, branch to Van Ostrand, Wisconsin, a distance of 1.98 miles.

An extension at Pierre, South Dakota, from an intersection with the main line of the Dakota Division to a connection with the Pierre & Ft. Pierre Bridge Railway at the west line of Reed Street, a distance of .95 miles.

An extension from Gregory to Dallas, South Dakota, a distance of 4.49 miles.

distance of 4.49 miles.

During the year ending June 30 1908 160 acres of the Company's Land Grant lands have been sold. The total number of acres remaining in the several grants June 30 1908 amounted to 389,175.68 acres, of which 15,807.59 acres were under contract for sale, leaving unseld 373,368.09.

In July 1907 the sale of timber lands in the Company's Wisconsin and Michigan Land Grants was discontinued.

for the purpose of re-examination and re-appraisement The withdrawal of these lands from the market has resulted

Appended hereto may be found statements, accounts and statistics relating to the business of the fiscal year, and the condition of the Company's affairs on June 30 1908.

MARVIN HUGHITT, President.

(For statistical tables, see under Annual Reports on a preceding page,)

The Commercial Times. COMMERCIAL EPITOME.

Friday Night, Oct. 2 1908.

A continued increase in the volume of business is noticeable in this country. More seasonable weather of late has had a stimulating effect on retail trade in some directions. The number of idle freight cars continues to diminish.

Uncertainty as to what to-day's Government reports would show has had a tendency to restrict tracing, and conflicting reports in regard to the labor situation in Lancashire have also had an influence in the same direction. Of late the tendency of prices, on the whole, has been downward, owing mainly to increasing receipts at the South and the belief among the generality of the trade that the movement of the crop must ere long reach such a large volume that it cannot fall to have a depressing effect upon the spot, markets of the South in the absence of an active demand for raw cotton from spinners. Although there has been some improvement in the cotton goods market, the condition of the trade still leaves very much to be desired. Mills in many cases are said to be selling at a loss and under such circumstances manufacturers are disposed to pursue a hand-to-mouth policy in making purchases at the South. In short, the belief of most people here is that the most potent factor in the making of prices this season will be the size of the demand for cotton goods. Unless that increases very materially, the trade as a rule believe that nothing can prevent a slow sagging of prices under the weight of the increasing crop movement. Sentiment in the English trade, as revealed in private advices from Liverpool, is apparently as pessimistic as at any time this season, owing to the absence of any indications pointing to an early ending of the Lancashire labor trouble, the dulness of trade in cotton goods in England and on the Continent and the increasing receipts in this country. The weather of late has been favorable in the main. At t

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

Continental imports for the past week have been 56 000

The above figures for 1908 show an increase over last week of 169,710 bales, a loss of 216.635 bales from 1907, a gain of 26,919 bales over 1906, and a loss of 921,355 bales from 1905.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

	Towns.	Rece	Receipts. Shtp	Shtp.	3	Rece	Recetpts. Ship- Stoc	Ship-	Stocks

WEATHER REPORTS BY TELEGRAPH.-Advices to us by telegraph from the South this evening are, on the whole, of a quite satisfactory tenor. Rain has fallen in most localities, but the precipitation has been moderate as a rule. As a result of favorable weather, picking has made

rule. As a result of favorable weather, picking has made excellent progress and the crop is moving freely. Some of our reports note a tendency to hold a considerable part of the crop for higher prices.

Galveston, Texas.—We have had rain on one day of the week, the rainfall being fifty hundredths of an inch. The thermometer has ranged from 54 to 86, averaging 70.

Abilene, Texas.—There has been rain on one day during the week, the precipitation being thirty-two hundredths of an inch. Average thermometer 66, highest 92 and lowest 40.

Brenham, Texas.—We have had heavy rain on one day of the week, the rainfall being one inch and forty-six hundredths. The thermometer has averaged 69, the highest being 91 and the lowest 47.

the week, the rainfall being one inch and forty-six hundredths. The thermometer has averaged 69, the highest being 91 and the lowest 47.

Corpus Christi, Texas.—We have had rain on two days the past week, the rainfall being fifty-eight hundredths of an inch. Thermometer has averaged 72, ranging from 54 to 90.

Cuero, Texas.—It has rained on two days during the week, the rainfall being fifteen hundredths of an inch. The thermometer has ranged from 48 to 91, averaging 70.

Fort Worth, Texas.—There has been a trace of rain on one day during the week. The thermometer has averaged 64, the highest being 86 and the lowest 42.

Henrietta, Texas.—There has been rain on one day during the week, the precipitation being twenty-five hundredths of an inch. The thermometer has averaged 64, ranging from 43 to 85.

Kerrville, Texas.—There has been rain on two days during

Kerrville Texas .-There has been rain on two days during the week, the precipitation being sixty-nine hundredths of an inch. Average therm ometer 63, highest 90 and lowest 35.

Lampasas, Texas.—It has rained on one day of the week, the rainfall being thirty hundredths of an inch. The thermometer has averaged 67, the highest being 94 and the lowest 20.

est 39.

Luling, Texas.—Dry all the week. The thermometer has ranged from 45 to 92, averaging 69.

Nacogdoches, Texas.—Rain has fallen on one day the past week to an inappreciable extent. Average thermometer 64, highest 84, lowest 43.

Paris, Texas.—We have had rain on two days during the week, the precipitation reaching one inch and ninety-five hundredths. The thermometer has averaged 64, ranging from 40 to 88.

hundredths. The thermometer has averaged 64, ranging from 40 to 88.

Taylor, Texas.—Rain has fallen on two days during the week, the rainfall reaching three hundredths of an inch. Average therm ometer 68, highest 90 and lowest 46.

Weatherford, Texas.—Rain has fallen on two days during the week, to the extent of ten hundredths of an inch. The therm ometer has averaged 63, the highest being 87 and the lowest 39.

lowest 39. Nashville, Tennessee.-Nashville, Tennessee.—We have had rain on one day of the past week, the rainfall being seventy hundredths of an

inch. The thermometer has ranged from 40 to \$1, averaging 62.

ing 62. Mobile, Alabama. ing 62.

Mobile, Alabama.—Weather fair but unusually cool. Light frosts occurred at a few points in the interior on Bept, 29th and 30th and Oct. 2. Cotton picking is making good progress, and about 50% of the crop is being held for higher prices. There has been rain on three days of the week, the rainfall being eight hundredths of an inch. The thermometer has

gress, and about 50% of the crop is being held for higher prices. There has been rain on three days of the week, the rainfall being eight hundredths of an inch. The thermometer has averaged 71, ranging from 52 to 86.

Montgomery, Alabama.—We have had rain on two days the past week, the rainfall being six hundredths of an inch. The thermometer has ranged from 48 to 84, averaging 69.

Selma, Alabama.—We have had rain on two days during the week, the precipitation being thirty-two hundredths of an inch. The thermometer has averaged 66.5, the highest being 83 and the lowest 48.

Ardmore, Oklahoma.—We have had rain on two days during the week, the precipitation reaching orle inch and fifty-three hundredths of an inch. The thermometer has averaged 62, ranging from 39 to 85.

Marlov, Oklahoma.—There has been rain on two days the past week, the rainfall being one inch and ninety-five hundredths. Average thermometer 60, highest 83, lowest 37.

Oklahoma, Oklahoma.—It has rained on two days of the week, the rainfall being sixty-four hundredths. The thermometer has averaged 61, the highest being 31 and the lowest 40.

Helena, Arkansas.—Cotton is opening rapidly. Light frost reported in some and the some and the past was a second of the some and the lowest 40.

lowest 40.

Helena, Arkansas.—Cotton is opening rapidly. Light frost reported in some places, but no damage. It has rained on two days of the week, the precipitation reaching fifty-five hundredths of an inch. The thermometer has averaged 63.6, ranging from 44 to 86.

Little Rock, Arkansas.—Rain has fallen on two days during the week, the rainfall reaching one inch and seventy-seven hundredths. Average thermometer 65, highest 85 and lowest 44

Memphis. Tennessee .--There has been rain on one day of

Memphis, Tennessee.—There has been rain on one day of the week, the precipitation reaching sixty-seven hundredths of an inch. The thermometer has averaged 66, ranging from 44 to 87.

Amite, Louisiana.—The week's rainfall has been two inches and fifteen hundredths on three days. The thermometer has ranged from 46 to 86, averaging 66.

New Orleans, Louisiana.—Rain has fallen on three days of the week, to the extent of two inches. Average thermometer 70, highest 84, lowest 56.

Shreveport, Louisiana.—We have had rain on two days of the past week, the rainfall being sixty-seven hundredths of an inch. The thermometer has averaged 64, the highest being 84 and the lowest 44.

Columbus, Mississippi.—We have had rain on one day during the week, the precipitation reaching ten hundredths of an inch. The thermometer has averaged 65, ranging from 40 to 89.

THE AGRICULTURAL DEPARTMENT'S, REPORT FOR SEPT. 25.—The Agricultural Department's report on cotton for Sept. 25 was issued Oct. 2 as follows:

The Orop Reporting Board of the Bureau of Statistics of the Department of Agriculture finds from the reports of the correspondents and agents of the Bureau that the average condition of cotton on Sept. 25 was 69.7, as compared with 76.1 on Aug. 25 1908, 97.7 on Sept. 25 1907, 71.6 on Sept. 25 1906, 71.2 on Sept. 25 1906 and a ten-year average of 67.6. Comparisons by States are as follows:

	P. C. of		Condition		-10- Yes	ar Aver-
	States.		Sept. 25 1907.	Aug. 25 1908.	Aug. 25.	Sept.
United States	100	69.7	67.7	76.1	73.9	67.6
Virginia		78	76	87	81	76
North arolina	5	69	76	80	77	71
South Carolina	8	68	77	76	76	70
Georgia	15	71	76	77	76	71
Florida	1	72	69	80	77	70
Alabama	1	70	68	77	74	68
Mississippi	11	70	69	79	77	68
Louisiana	5	55	65	63	75	68
Texas		71	60	75	69	63
Arkansas		70	65	83	74 .	68
Tennessee		78	76	88	82	74
Missouri		70	72	90	81	76
Oklahoma		70	65	70	77	70

The Oct. 1st or Sept. 25th averages in earlier years for all the States were, according to the Agricultural Department, as follows: 71.6 in 1906; 71.2 in 1905; 75.8 in 1904; 65.1 in 1903; 88.3 in 1902; 61.4 in 1901; 67.0 in 1900; 62.4 in 1899; 75.4 in 1898; 70.0 in 1897; 60.7 in 1896; 65.1 in 1895; 82.7 in 1894; 70.7 in 1893; 73.3 in 1892.

EGYPTIAN CROP.—Messrs. L. H. A. Schwartz & Co. of Boston have advices from R. & O. Lindemann. Alexandria, of date Sept. 11, as follows:

Crop news at this moment is tayorable, but the damage done by worms and dry weather cannot be made up. We have not had any fog. Arrivals from Upper Egypt are smaller than last year, because of the lateness. Staple of arriving lots is better than last season.

CENSUS BUREAU REPORT ON COTTON GINNING

CENSUS BUREAU REPORT ON COTTON GINNING TO SEPT. 25.—The Census Bureau issued on Oct. 2 its report on the amount of cotton ginned up to Sept. 25 from the growth of 1908 as follows, comparison being made with the returns for the like period of the preceding years.

The amount of cotton ginned to Sept. 25 from the crop of 1908, counting round bales as half bales, was 2,582,688 bales, against 1,52,602 to the same date in 1907, 2,037,283 in 1906 and 2,355,716 bales in 1905. The number of active ginneries was 23,650 in 1906. 1,522 in 1907, 2,0416 in 1906 and 21,389 in 1905. The number of round bales included this year is 41,356, as compared with 66,502 bales in 1906 and 74,816 bales in 1905. The number of bags of Sea island cotton included is 11,275 in 1908, 4,259 in 1907, 2,689 in 1906 and 11,936 in 1905.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. Merchants are not willing to pay present prices. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS.

BREADSTUFFS.

Friday, Oct. 2 1908.

Prices for wheat flour have not as a rule shown any material change during the week, though on the whole the tendency has been towards a lower level, owing mainly to depression in wheat. Moreover, the buying here has continued on a hand-to-mouth basis during much of the time, and stocks of late have shown some increase. At the large markets at the Northwest and the Southwest, a heavy business has been transacted. The mills are running on full time and shipping directions are being received so freely that the output is not expected to decrease in the near future. Rye flour has been in fair demand and firmer. Corn meal has been quiet and steady.

output is not expected to decrease in the near future. Rye flour has been in fair demand and firmer. Corn meal has been quiet and steady.

Wheat has declined, owing mainly to continued heavy receipts at the Northwest and a large increase in stocks. The receipts at Minneapolis and Duluth thus far this season, it is stated, have been 20,000,000 bushels larger than in the same time last season. Last week there was an increase in the world's available supply of 11,410,000 bushels, as compared with an increase for the same week last year of only 2,253,000 bushels. The statistical position is steadily losing in strength, and the advocates of lower prices contend that if the crop movement continues on anything like its present scale, the deficit in world's stocks will soon disappear. The export business during much of the time has been rather light, and it is argued that foreigners are likely to buy as sparingly as possible in this country unless there is a change for the worse in Argentine crop prospects. General rains have fallen in the winter-wheat belt in this country, and some reports apparently indicate that the decrease in the acreage will be smaller than was expected at one time. Large Chicago operators have sold heavily at times. Pit traders, too, have attacked the market and forced considerable liquidation on stop orders. Moreover, the market has felt the effects of hedge selling by the Northwest. Of late, however, there has been a tendency to advance. Heavy buying occurred on the decline, in which commission houses took a prominent part, while there has also been not a little covering. The demand for flour continues on a large scale, and millers have been heavy buyers of cash wheat, for which they have paid good premiums. Then, too, reports are persistent that offerings from the interior have shown a noteworthy diminution, and that the indications point to a considerable shrinkage in the movement to the terminal markets at the Northwest. Liverpool has shown noteworthy strength at diminution, and that the indications point to a considerable shrinkage in the movement to the terminal markets at the Northwest. Liverpool has shown noteworthy strength at times, and there has been more or less foreign buying here. To-day, prices declined, owing to continued large receipts at the Northwest, increasing stocks, disappointing cables, a lessened cash demand, bear hanmering and liquidation.

GOVERNMENT WEEKLY WEATHER REPORT.—
Last Issue of the Season.—Mr. P. C. Day, Acting Chief of the
Climatological Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on
the weather in the various States for the week ending Sept. 28,
summarizing them as follows:

summarizing them as follows:

The week ending Sept. 28 1908 was marked by rapid and pronounced changes in the weaker conditions that had prevalled over large districts for several weeks. The intense heat that had prevalled over the more northern districts east of the Rocky Mountains gave way to decidedly cool weather toward the end of the week, and nearly all districts west of the Mississippl experienced sharp and rapid changes in temperature, with freezing weather over the more northern districts and light to killing frosts from the Panhandte of Texas northeastward to Lake Superior, and indications of a decided extension eastward. Warm weather continued to the end of the week over the Lake region, Diddle Atlante.

Sunshine was generally deficient in the Gulf districts and considerable smoky, facry weather prevailed over the Lake region, Middle Atlante. The severe drought that had prevailed over the Ohio and upper Missispip valleys, Lake region, Middle Atlante States and New England, was generally broken over the more western and southern portions by good rains the latter part of the week, with prospects of the extension of the rain area over the remaining districts. More rain is still needed, however, to effectually replenish the water supply over large portions of the lower Lake region, Ohio Valley, Middle Atlantic States and New England. Rainfall was generally sufficient in the Gulf States and some heavy storms occurred in Southern California and in portions of Utah. Snow occurred very generally over the Rocky Mountain districts on the 25th.

The forest fires that had prevailed in the upper Lake region were generally extinguished by the rains in that di trict, but they still continue at the end of the week in portions of Peansylvania and New York.

THE DRY GOODS TRADE.

New York, Friday Night, October 2 1908.

Business done during the month of September in general lines of dry goods has shown some increase in volume. improvement has been more or less fitful, and the inference drawn therefrom is that whilst the need for goods is gradually growing throughout the country, buyers are by no means disposed, as a rule, to purchase more than required from time to time to meet their accruing requirements. In the direction of manufacturing, some encouragment is derived from the reports coming to hand of erstwhile idle mills re-starting or increasing the amount of machinery in active operation. At the same time, there is no diminution in the number of complaints heard around the trade of unprofitable manufacturing, and of the fact that notwithstanding the relatively low range of prices ruling, buyers are still persistent in their efforts to secure still further reductions. Compared with a month ago most manufacturers ductions. Compared with a month ago most manufacturers state that they are in comparatively a less favorable position now than they were then, so far as selling values of merchandise are concerned. The past week's operations in the cotton goods division of the primary market have again been largely confined to small operations, about the only variation from these being in the case of the cutting up trade, which, on a few lines, notably for shirting purposes, have placed some fair orders for forward delivery. It is also reported that there has been an increase in the number of inquiries con ing from China for cotton goods suitable for also reported that there has been an increase in the number of inquiries con ing from China for cotton goods suitable for that market, but the indicated price ideas of would-be buyers are almost invariably so low that actual business to any extent has been out of the question. In the woolen and worsted goods division trade continues quiet in both heavy and light-weight descriptions.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Sept. 26 were 2,052 packages, valued at \$146,804, their destination being to the points specified in the table below:

	1	908	1	907
		Since		Since
New York to Sept. 26-	Week.	Jan. 1.	Week.	Jan. 1.
Great Britain	12	620	- 53	1.352
Other Europe	10	906	9	1.030
China.	222	18,392	1.913	18,148
India	12	7.804	35	6.043
Arabia		24.735	10	24,420
Africa	88	7.326		3.909
West Indies	514	18.589	434	17.098
Mexico	17	1.243	20	1.826
Central America		11.914		10.243
South America		30.375	3,479	36,373
Other countries		15,345	698	21,164
m in				

The value of these New York exports since January 1 have been \$8,675,417 in 1908, against \$8,408,412 in 1907.

The business in heavy brown sheetings and drills has been on a limited scale, the jobbing demand being light throughout. Prices are steady on leading lines, but in other directions some irregularity is noticeable. Bleached cottons are well sold under the leading tickets, but evidences of accumulation of leaves could be supported by the contraction of the contracti sold under the leading tickets, but evidences of accumulation of lower qualities are noticeable in the market. Coarse colored cottons are quiet so far as demins, ticks and checks are concerned, but a fair business is reported in chambrays, shirt-makers being generally responsible for this. Staple and fancy prints are selling steadily and in moderate quantities, as are dress ginghams, but the demand for staple and other low grades of ginghams is rather slow. The advance reported last week in Amoskeag dress ginghams has been followed in other lines of about corresponding grades. The demand for linings for spring trade is maintained as various new lines are being opened. Cotton flannels are quiet in staple lines with about an average business doing in pattern flannettes. Business in print cloths is made up almost entirely of small purchases, the demand being met by sellers at previous prices, and quotations remain unchanged at 3c. for regulars and 4c. for standard wide goods.

WOOLEN GOODS.—The demand in this division has

WOOLEN GOODS.—The demand in this division has been interfered with to some extent by the Jewish holidays, and in the aggregate the turn over has reached but a moderate volume. Men's wear heavy-weights are sold in small quantities only, and duplicates on spring lines have not been numerous. Worsteds still keep the lead, on such orders as are coming forward, and manufacturers producing these are better placed than those whose output is confined to woolen goods. The announcement made by the American Woolen Co. that it is now operating from 50 to 60% of the full capacity of its mills is regarded, however, as an indication that the general demand is gradually im proving. Overcoatings and cloakings are without special feature. Dress goods are quiet in most lines; in these broadcloths are in chief request and desirable qualities are well sold and steady in price. in price

FOREIGN DRY GOODS.—Advance orders on dress goods are not coming forward with any degree of freedom, but occasional sales of fair extent are reported in fine grade broadcloths; men's wear fabries are inactive. Piece silks are firm but quiet and a moderate business is reported in fine grades of ribbons. Linens are firm, with some sellers showing a tendency to hold for higher prices. Burlaps are also firm .

STATE AND CITY DEPARTMENT.

News Items.

Columbus, Ga.—Water Bond Suit to Be Appealed to U. S. Supreme Court.—In connection with the suit brought to restrain the sale of the \$250,000 4% 25-year bonds voted Dec. 4 1902 to build a new water plant, we have received the following information from the City Clerk: About June 1908, Judge Newr an of the United States Circuit Court modified his decision so as to allow the city to sell its bonds and proceed with the building of a water-works plant, but restricting it from operating the same. Pending an appeal to the United States Supreme Court, the city has made a contract for artesian water, and wells are now being sunk. The bonds have not yet been sold. As forn erly stated, Judge Newm an had previously dismissed this suit for want of jurisdiction. Upon appeal, however, the United States Supreme Court ren anded the case to Judge Newman, holding that the Circuit Court did have jurisdiction. See V. 77, p. 311, 262; V. 79, p. 2163, 2599; also V. 80, p. 1985.

Bond Proposals and Negotiations this week

have been as follows:

Aberdeen, Miss.—Bond Offering.—Proposals will be received until 8 p. m. Oct. 7 for \$10,000 5% refunding electricity bonds. Denon ination \$500. Date May'l 1908. Interest annually in New York City. Springfield, Ohio.—Bonds Authorized.—In local papers it is reported that the issuance of the following assessment bonds was authorized at a recent meeting of the City Council \$28,604 44 for the improvement of Fountain Avenue and \$2,066 10 for the improvement of the first alley west of Eden Avenue.

Sunland School District, Inyo County, Cal.—Bond Offering.—Reports state that proposals will be received by the Clerk Board of School Trustees for \$5,000 school bonds.

Tempe Union High School District, Maricopa County, Ariz.—Bond Offering.—Proposals will be received until 11 a. m. Oct. 5 by Wm. E. Thomas, Clerk Board of County Supervisors (P. O. Phoenix), for the \$50,000 5% gold coupon Union High School building bonds voted on August 17. See V. 87, p. 769. Denomination \$1,000. Date

Oct. 5 1908. Interest annually at the County Treasurer's office. Maturity Oct. 5 1928. Bonds are tax-exempt. Certified check for 10% of bid, payable to the Clerk Board of County Supervisors, is required. Total debt this issue. Assessed valuation \$1,411,000. These securities take the place of the \$50,000 bonds disposed of on July 6 (V. 87, p. 184), which sale was never consummated, as it was found that the advertisement calling for proposals was published two days short of the required time.

Terelta School District, San Diego County, Cal.—Bond Election.—An election will he held Oct. 6, it is stated, to vote on the issuance of \$2,500 school bonds.

Tilbury East Township, Can.—Debenture Sale.—Wm. C. Brent of Toronto recently bought \$2,128 4½% debentures due in 1931 and \$1,589 6% debentures maturing part yearly

Todd County (P. O. Long Prairie), Minn.—Bond Sale.—
On Sept. 12 the Union Investment Co. of Minnapolis purchased \$7,700 6% 10-year drainage bonds for \$7,865 (101.142 and accrued interest. Purchaser to furnish blank bonds at his own expense. Denomination \$1,000, except one bond of \$700. Date Nov. 1 1908.

Toledo School District (P. O. Toledo), Lucas County, Ohio.—Bond Offering.—Proposals will be received until 12 m. Oct. 9 by Lillian I. Donat, Clerk Board of Education, for \$150,000 4% school-property-improvement bonds. Authority Sections 3992 and 3994, Revised Statutes. Date Oct. 9 1908. Denomination \$1,000. Interest semi-annually at the United States Mortgage & Trust Co. in New York City. Maturity on Oct. 9 as follows: \$50,000 in each of the years 1923, 1928 and 1933. Certified check for \$1,000, payable to the Board of Education, is required. Bonds are tax-exempt.

Tuckahoe, N. Y.—Bond Sale.—The \$4,500 5-13-year (serial) registered sewer-extension bonds, proposals for which were asked until Sept. 9, have been bought by Fenwick & Rogerson of New York City at 100.07 for 4.75s. See V. 87, p. 636, for a description of these bonds.

Uhrichsville, Ohio.—Bond'Sale.—On Sept. 26 the \$6,500 4½% 25-year coupon Deersville Avenue improvement bonds

described in V. 87, p. 770, were awarded to the Davies Bertram Co. of Cincinnati at 106.938 and accrued interest—

Hayden Miller & Co.. Clev. 6,879 00 | W. J. Hayes & Sons, Cleve. 6,701 00 Union County (P. O. Marysville), Ohio.—Description of Bonds.—We are advised that the \$75,000 5% road-construction bonds awarded on Sept. 19 to Weil, Roth & Co. of Cincinnati for \$78,422 (104.562) are dated Sept. 1 1908. Interest is payable semi-annually. See V. 87, p. 835.

Van Buren Township (P. O. Dayton), Montgomery County, Ohio.—Description of Bonds.—Seasongood & Mayer of Cincinnati inform us that the \$10,000 5% 1-20-year (serial) road bonds recently awarded them at 107.565 and accrued interest—a basis of about 4.107% (V. 87, p. 699) bear date of Sept. 15 1908. Denomination \$500. Interest semi-annual.

Varmilion County (P. O. Newport), Ind—Reads With.

Vermilion County (P. O. Newport), Ind.—Bonds Withdrawn from the Market.—The County Auditor informs us that the 4½% gravel-road bonds, three series, offered without success on Aug. 12 (V. 87, p. 500) will not be placed on the market again on the market again.

Vermilion School District, Can.—Debenture Sale.—This district has sold \$8,500 6½% debentures maturing part yearly for thirty years to Wm. C. Brent of Toronto.

Verona, Essex County, N. J.—Bond Sale.—The \$55,000 4½% coupon water bonds advertised to be sold on Sept. 19 have been awarded to the Fidelity Trust Co. of Newark at par. These securities are described in V. 87, p. 770, and mature Nov. 1 1928, but are subject to call \$3,000 yearly after Nov. 1 1913.

Vicksburg, Miss.—Bonds Authorized.—On Sept. 25 the City Council authorized, it is stated, the issuance of \$225,000 4½% 20-year sewer-system-installation bonds.

Warren County (P. O. Warrensburgh), N. Y.—Bonds Re-Awarded.—We are informed that the \$50,000 5% registered road bonds awarded on August 5 to J. T. Finch,

NEW LOANS.

REVIEW OF SEPTEMBER.

While material developments during September were as a rule favorable, the political happenings on the other hand, at least as far as the Presidential election is concerned, were rather disquieting, and this caused a feeling of uneasiness in financial circles which led to a sharp break in prices on the Stock Exchange. That trade conditions were slowly but surely improving was evident from a number of circumstances, but most of all from the decrease in the number of idle cars on the railroads. The official bulletin regarding the freight-car situation issued every two weeks by the American Railway Association showed for Sept. 16 (the figures never become available until about ten days after the date to which they relate) an aggregate of only 173,587 idle freight cars as against 222,632 on Sept. 2, 253,003 on Aug. 19 and no less than 413,605 on April 29, when the total was at its maximum. This of course encourages the hope that theseverest stage in the country's period of intense trade depression has been passed.

Another circumstance of a highly encouraging nature was the decision of the United States Circuit Court for the Eastern District of Pennsylvania (composed of Judge George Gray of Delaware and Judges George M. Dallas and Joseph Buffington), handed down Sept. 10, declaring unconstitutional what is known as the "Commodity Clause" of the Hepburn Rate Law of 1906. The "Commodity Clause" is a provision forbidding a carrier from transporting over its lines, in inter-State commerce, any commodity (save only lumber) in which it may have any ownership or interest, direct or indirect. The law was aimed mainly at the coal carriers, both anthracite and bituminous, and the purpose was to compel the coal-carrying companies to dispose of their ownership or interest in coal lands or coal mines, notwithstanding they hold express authority for such ownership by their charters or State laws. The Court held (Judge Buffington dissenting, but filing no opinion) that the clause in question was repugnant to the provisions and the spirit of the Federal Constitution on a number of grounds, but more particularly because it violated the Fifth Amendment of the United States Constitution, which forbids the taking of property without due process of law and because it is not a regulation of inter-State commerce within the commerce clause of the Constitution, which is no exception to the general doctrine that unlimited power has no place in American governmental institutions and that there are rights of liberty and property that are secure against hostile legislative action. I. The political situation, as said, became disquieting. The disturbance was mainly occasioned by the action of President Roosevelt in taking an active part in the Presidential campaign on behalf of Mr. Taft. to the fact that the candidates of the two leading political parties are both committed to radical policies, the election canvass had been proceeding in an apathetic manner. Mr. Roosevelt, on his return to Washington after his summer vacation at Sagamore Hill, announced his determination to infuse some "ginger" into it. The opportunity had come a few days before this, and Mr. Roosevelt was quick to avail of it. Mr. William R. Hearst, in championing the cause of the candidate of the Independence Party, which he had called into being, sought to make it appear that the two old political parties both had affiliations and connection with the so-called trusts or large corporations, and were bound to them by reason of that fact, and that, as a consequence, those who would destroy these trusts must support the Independence ticket. With that purpose in view, he published some correspondence alleged to have passed between John D. Archbold of the Standard Oil Company and Senator J. B. Foraker of Ohio several years ago, and also made the allegation that Governor C. N. Haskell of Oklahoma (who, at Mr. Bryan's solicitation, had been made treasurer of the Democratic National Committee), was a tool and agent of the Standard Oil Company, and, as an employee of such company, had been connected with an attempt to bribe or influence Attorney-General Monnett of Ohio to dismiss suits pending several years before against the Standard Company.

Mr. Roosevelt, accepting the Hearst charges as being true, promptly jumped into the fray, and gave out a statement saying that Mr. Haskell and Senator Foraker represented the influences which had been arrayed against his policies and his Administration, and contended that Mr. Foraker had been repudiated by the Republican Party, while Governor Haskell still retained the confidence of the Democratic Party and the support of Mr. Bryan. He further asserted that Mr. Taft had been in full accord with him throughout his Administration, and that he alone could be trusted to carry out and continue the radical policies for which the Administration stood. Mr. Bryan thereupon sent a lengthy telegram to Mr. Roosevelt, asking him for proof to show that Mr. Haskell had been connected with the Standard Oil matter in Ohio. The President promptly replied, but failed to furnish proof. Instead, he made a general attack on Mr. Haskell and Mr. Bryan, and declared that the latter must have known of the charges against Mr. Haskell before having him appointed as treasurer, which Mr. Bryan denied. In this way the controversy continued, each trying to make it appear that the opposing candidate could not be trusted to carry out radical policies. As such policies had proven so detrimental to the country's industrial welfare, the prospect naturally did not look very promising for business affairs.

The final outcome was that Mr. Haskell resigned his post as treasurer. Another incidental development was that General T. Coleman du Pont of Delaware tendered his resignation as head of the Speakers' Bureau and member of the Executive Committee for the East of the Republican National Committee. General du Pont had been connected with the so-called powder trust, against which the Federal Government has a suit pending. Senator Foraker was able to set up a complete defence to the charges against him, he showing that his employment by the Standard Oil Company ended in 1901, and thereafter he had refused retainers from the company because incompatible with his public duties.

An event of the month bearing on the cotton trade was the shutting-down of the cotton mills in Lancashire, England, owing to the failure of the operatives to agree to the 5% reduction in wages determined upon by the Federation of Cotton Spinners the previous month.

In the stock market, as already stated, a sharp and general break in prices occurred. Values previously had been forced to high figures, and with the development of political uneasiness, a collapse was difficult to avoid. The result of the Maine election and the suspension of dividends on American Locomotive common stock were the original provoking cause, but as the month progressed the increasing prominence given to the radical policies which both the Presidential candidates were favoring became more and more disturbing. Finally, what might be termed a political scare developed. After each downward movement, there was usually more or less recovery. The market, however, almost the whole month remained in a highly sensitive and excited condition, and seldom, except in times of panic, have prices fluctuated so widely or the course been so erratic.

In moreign exchange there was a complete reversal of the situation which had existed the previous month. Then there was talk of the possibility of early imports of gold; now, exchange rates moved up to figures that seemed to make early gold exports likely.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1908. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official ist. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "Price about January 2 1908" were made on that date, except those in italics, which are the nearest in January 1908. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For foot notes to tables see last page of Bonds and last page of stocks.

GENERAL QUOTATIONS

BONDS AND STOCKS.

In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
 Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of tasses
 Of course the coupon, if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked (a) indicate that the purchaser must pay accrued interest in addition to the price given. The method of quoting on the New York Stock Exchange is to quote the price flat (that is, to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed

4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted. per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are

merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

STREET AND ELECTRIC RAILWAYS

In response to the request of many subscribers, we have changed the order of arrangement of the Street and Electric Railway Securities contained in the following lists. The previous practice was to group them by cities. This was a satisfactory and logical arrangement so long as the railways remained distinctly local enterprises and confined to the limits of a single city. But with the introduction of electricity as motive power most of the local systems have by degrees been transformed into interurban roads, some of them covering wide stretches of territory and connecting numerous cities and towns. In such cases the reader might look under several places before finding the one under which the road was given. To obviate this difficulty, we have recast the entire list and arranged the roads all in alphabetical order according to the names. Where the title is that of a street (like Third Avenue RR.), the securities will still be found grouped together in most cases, it being possible to do this because the controlling company usually bears the name of the city where it is located. Thus the New York City lines will be found under the New York City Railway, the Philadelphia lines under the Philadelphia Rapid Transit, &c. Cross references will assist the reader in finding any particular security.

Prices marked thus (a) indicate that the purchaser does not pay accrued interest in addition.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

[•] Flat price. & Basis. % Nominal. & Under a law approved March 9 1903, and which went into effect April 23 1903, bonds issued after that date by State or municipal corporations are tax-exempt and these sell on a better basis.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark thus (*).

The figures in the column "to net" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.
